NOTED ALIENIST VISITS LEOPOLD

Insanity Move Rumored to
Aid "Thrill Slayer"

Killer of Franks Boy May
Seek Asylum Berth

Procedure Like Thaw Case
Seen as Possible

CHICAGO, June 2. (AP)—A noted
alienist visited Nathan Leopold, Jr.,
in Joliet penitentiary today and con-
versed with him for half an hour at
the invitation of Leopold's family
in what many considered an effort
to have one of the slayers of
little Bobby Franks moved from the
penitentiary to an asylum, although
Leopold's father denied such was the
 motive.

The alienist is Dr. Bernard Glueck,
former psychiatrist at Sing Sing pris-
on. Leopold, who, with Richard Loeb,
is serving a life sentence for the slay-
ing of the Franks boy and from an
other ninety-nine-year sentence for
kidnaping, talked with the psychia-
trist for half an hour. When Dr.
Glueck left the prison he refused to
comment on the conversation.

Leopold's father, however, said the
psychiatrist is conversing with the
prisoners and had expressed a
desire to visit the prison and the
senior Leopold said the family had
obtained a permit for this and had
asked that his own visiting day to
his son be advanced to Saturday.

Prison officials said that Leopold
recently had been restless and did not
seem as resigned to his fate as when
he was brought to Joliet two years
ago after he and Loeb pleaded guilty to
kidnaping and slaying the Franks
boy "for a thrill." Leopold at first
worked in the shoe shop of the pris-
on, but later was made an errand
boy.

A year ago Leopold was in solitary
confinement after a deputy prison
warden was slain and seven prisoners
escaped. Since entering the prison Leopold
has been out twice, once to testify
in the prison break and again when
he and Loeb were defendants in a
suit filed by a former Chicago cab
driver who charged the couple had
mutilated him previous to the Franks
slaying. The jury in this case dis-
agreed.

Lawyers say that a procedure sim-
ilar to that by which Harry Thaw
was committed to an asylum might
be attempted in the Leopold case,
and admitted that inasmuch as both
Leopold and Loeb pleaded guilty, Leo-
pold must be returned to prison from
an asylum if found insane now and
later found to have regained his san-
ity.

EIGHT MORE TRAVELERS STRANDED

Fourteen Tourists in All,
on Bus Trip from Coast,
Tell Foes at Kansas City

KANSAS CITY (Mo.), June 2. (Re-
cutive)—Eight more tourists travel-
ing from Los Angeles to eastern cities
by bus today were stranded in Kan-
sas City, making a total of fourteen
in two days.

The travelers told George M. Rus-
ser, manager of the Better Business
Bureau, they had purchased their
tickets from a Los Angeles travel busi-
ness which promised to arrange
transportation for them out of Kan-
sas City over licensed bus lines oper-
ating here.

The Kansas City Travel Bureau to
which the Los Angeles concern di-
rected them, however, has no ar-
rangements for handling passengers of
the western bureau, and no funds for
their transportation out of Kan-
sas City were forwarded here.

The drivers brought the four Los
Angeles could not be held responsi-
ble as they had been hired by the
Los Angeles concern to take the tour-
ists no further than Kansas City.

SERVICE CLUBS WIN

Supreme Court Decides in Favor of
Oakland Monument

SAN FRANCISCO, June 2. (AP)—The
State Supreme Court granted a writ
of mandate to service clubs of the
Bay District, commanding William J.
Hamilton, acting chairman of the Alameda
Board of Supervisors, to grant the
clubs the right to erect a veter-
ans' memorial in Adam Park, Oak-
land.

The United Veterans of the Repub-
lic, O.A.R., Disabled Veterans of the
World War and American Legion were
the petitioners. In their case they
demanded they planned to construct a
\$250,000 memorial hall in Adam Park,
but that they were refused permis-
sion by the Supervisors. The grounds
that the plan would conflict with
visions of the park builder.

ORMISTON'S EX-WIFE LEAVES FOR SYDNEY

SAN FRANCISCO, June 2. (AP)—Mrs.
Ruth Peters Ormiston, former wife of
Kenneth G. Ormiston, who figured in
the Ames-Semple-McPherson dis-
appearance case, left San Francisco
for Sydney today after divorcing Or-
miston in Los Angeles. Mrs. Ormiston
explained that she retained her
married name because of their son,
who was given into her custody.

FEDERAL VOCATIONAL AGENT DIES AT RENO

RENO, June 2. (AP)—F. Dean Brad-
ley, 44 years of age, regional agent
for the Federal Bureau of Vocational
Education for the eleven Western
States, died today.

NEW SCIENCE TO FORECAST TIME AND MODE OF DEATH

SAN FRANCISCO, June 2. (AP)—The
birth of a new branch of sci-
ence, by which the time and man-
ner of death may be forecast, is
being heralded in the program of the
convention of the National League of
Nursing Education, which meets here
next week.

"Prophetic medicine," is the name
of the new science, and it promises
to become a matter of common prac-
tice in the future, says an announce-
ment by Dr. G. Ward Crumpton, head
of the health service clinic at the

Mrs. Medill McCormick

WASHINGTON, June 2. (AP)—Mrs.
Medill McCormick, widow of Senator
McCormick of Illinois, said today af-
ter a call at the White House, that
she was considering entering the race
for the Republican gubernatorial
nomination in Illinois next year.

HONOR POST VOTED FOR ANGELENO

Mrs. George Goldsmith to
Preside at Conference of
Jewish Women Here

SPOKANE, June 2. (AP)—Mrs.
George Goldsmith of Los Angeles
was elected president of the fifth
western interstate conference of the
National Council of Jewish Women,
which meets in 1927 in her home
city, at today's session of the fourth
conference, meeting here.

Mrs. Mark Shuman of San Diego
was chosen treasurer. A secretary
will be named by the new presi-
dent. Resolutions adopted today included
one by the Portland delegation ask-
ing that a national officer be sent
to each State or interstate confer-
ence in the future, one from Seattle,
recommending that important mat-
ters be brought before the transi-
ent meeting of the national body
should be submitted to each of the
sections over the country at least
thirty days before the triennial, and
one by San Francisco, asking that
in adopting new and uniform con-
stitution and by-laws for the State
and interstate conferences, the na-
tional body make them elastic to al-
low for local conditions.

Louvain's New Library Aided by Americans

BRUSSELS, June 2. (AP)—Mgt. La-
doux, rector of Louvain University,
when notified by W. E. Tuick and
M. E. Shaler that the executive com-
mittee of the Commission for Relief
in Belgium Educational Foundation
had voted a further sum for the Lou-
vain Library, declared: "This is the
second time American funds have
come to help in the thick of time,
when I was at a loss to know how to
complete the library."

The new Louvain Library, replac-
ing the one destroyed in the early
part of the European war in 1914,
now will be completed by the end of
the year, at a total cost of about
\$250,000.

Agriculture of State to Have Federal Bureau

SACRAMENTO, June 2. (AP)—Estab-
lishment in Sacramento of a regional
research office of the United States
Bureau of Agricultural Economics
was announced today by George H.
Hecke, director of the State Depart-
ment of Agriculture. The office will
be directed by Burke H. Grinstead,
United States agricultural economist,
and will serve as a contact station
between the Federal bureau and
California's numerous divisions of mar-
keting. Grinstead will reach Sacramen-
to this month to open the new
branch.

WHEAT DEPARTS FOR FRUIT RATE HEARING

SAN FRANCISCO, June 2. (AP)—Carl
I. Wheat, attorney for the Cali-
fornia State Railroad Commission,
left here today for Washington,
where he plans to represent Cali-
fornia deciduous fruit growers in a rate
hearing, to be conducted before the
 Interstate Commerce Commission
next Thursday. Wheat's arguments
are expected to substantiate the
growers' appeal for a reduction in
rates on deciduous fruits from \$1.75
to \$1.44 per 100 pounds. Wheat ex-
pected to be opposed by a battery of
attorneys representing the railroad
affected.

Turin Workers Accept General Wage Reduction

ROME, June 2. (AP)—All workers
of the Province of Turin, which at-
tends Milan is the most important in-
dustrial center in Italy, have accepted
a 10 per cent reduction in wages
as a result of lengthy negotiations
between Fascist employers and em-
ployee organizations.

The new contract, it is estimated,
will affect more than 200,000 work-
ers including the personnel of the
Fiat and other automobile and
metallurgical plants.

SACCO-VANZETTI QUIZ INSTITUTED

Governor Names Committee
to Sift Evidence

Harvard President Heads
Board of Advisers

Execution Date, July 10,
May be Deferred

BOSTON, June 2. (AP)—The inter-
nationally celebrated case of Nicola
Sacco and Bartolomeo Vanzetti
swung onto new ground today with
the appointment by Gov. Fuller of a
committee to aid him in his review
of the long litigation surrounding
the conviction and sentence to
death of the admitted radicals as
slayers.

A. Lawrence Lowell, president of
Harvard University; Robert Grant,
formerly a judge of the Probate Court
and a novelist; and Samuel W. Stratton,
president of the Massachusetts
Institute of Technology, comprise
the advisory committee. They will
sit independently of the Governor,
who for several weeks has devoted
a large part of his time to his own
review of the proceedings.

Gov. Fuller's announcement was
his first intimation of his method
of handling the case since he first
undertook consideration of the evi-
dence on the plea of Vanzetti.
Sacco and Vanzetti are under sen-
tence to die during the week of July
1 for the murder of a South
Braintree paymaster and his guard
more than seven years ago. Since
their conviction in 1921 until they
were sentenced to death last April,
after the Supreme Court had twice
dismissed appeals for a new trial,
a defense committee which raised
hundreds of thousands of dollars
has kept the case before the world.

Because of the shortness of time
between the appointment of the ad-
visory committee, which must con-
sider a mountainous mass of evi-
dence, and the date set for the ex-
ecution, there were suggestions to-
day that the Governor might defer
the date.

HOPE GONE FOR FILIPINO SHIP VICTIMS

No Trace Found of More
Than Hundred Who Went
Down Off Philippine Coast

MANILA, June 2. (AP)—The Manila
Times received a telegram today from
Severino De Guzman, chief officer of
the Interisland steamer Negro, which
was wrecked Sunday off Romblon
Island, saying he had given up hope
for the lives of more than 100 of
the passengers and crew aboard the
vessel. No trace of the missing per-
sons has been found.

The storm which caused the sink-
ing of the Negro abated today,
giving rescue workers an opportunity
to aid the few survivors of the wreck
who are camped on the Boodoo
peninsula.

De Guzman, who commanded the
Negro in the rescue, said his ship
sank in three minutes. The con-
fusion as a result of the sudden
approach of disaster caused a panic
and the passengers stampeded for
the lifeboats, he said.

Reports that other ships were
missing in the storm could not be
confirmed here. Some anxiety was
expressed over the steamer Fortuna, which
left Manila May 26, last, for San
Jose, Mindoro Island. Her arrival
there has not yet been reported but
she has not been listed as lost.

SHEFFIELD DENIES HE HAS QUIT

Ambassador Repudiates
Report and Announces
Accord With Superiors

MEXICO CITY, June 2. (Reclusive)
Ambassador Sheffield today issued a
statement denying he had resigned his
office. His statement was prompted
by "incorrect and misleading re-
ports." The statement contradicts
persistent rumors that the ambas-
sador had resigned his office for
many months, that the Ambassador
differs with President Coolidge and
Secretary of State Kellogg on ques-
tions of policy. The statement said:
"In view of press reports regard-
ing my asserted resignation, I de-
sire to state that I have not re-
signed. I have deemed it a privi-
lege to carry out the policies of Presi-
dent Coolidge and Secretary Kellogg,
with which I am in complete ac-
cord."

In summing up correspondence to
him, Sheffield broke for the first
time since his return here a year ago
a rigid rule never to give personal in-
terviews to newspaper men. He read
his statement to a group of reporters
on it, and declined to answer any
questions regarding relations between
the United States and Mexico.

The Ambassador will leave Sunday
night for Vera Cruz, where he will
take ship for New York. As the
correspondents left Sheffield expressed
his appreciation to them. One re-
spondent said his words sounded like
a valedictory message. This Sheffield
laughingly denied.

It is learned the Ambassador may
get some extension of his leave of
absence, and go abroad with Mrs.
Sheffield. The Ambassador said he
had had an appointment to see
President Coolidge at noon today for
the customary diplomatic
call, but had been informed by the
Foreign Office that the President was
ill.

Turin Workers Accept General Wage Reduction

ROME, June 2. (AP)—All workers
of the Province of Turin, which at-
tends Milan is the most important in-
dustrial center in Italy, have accepted
a 10 per cent reduction in wages
as a result of lengthy negotiations
between Fascist employers and em-
ployee organizations.

The new contract, it is estimated,
will affect more than 200,000 work-
ers including the personnel of the
Fiat and other automobile and
metallurgical plants.

VANDERBILT LOSES WIFE BY DIVORCE

Paris Court Also Gives
Custody of Son to the
Former Virginia Fair

PARIS, June 2. (AP)—Mrs. William
K. Vanderbilt II, the former Virginia
Fair, was granted a decree of divorce
today.

The judgment says Mr. Vanderbilt
drove his wife from their conjugal
domicile and showed himself exces-
sively cold toward her.

Mrs. Vanderbilt is given the custody
of their son, William K. Vander-
bilt III. The judgment makes no
mention of any financial settlement,
the plaintiff not having asked for al-
imony.

The marriage of William K. Vander-
bilt to Virginia Fair in 1899
was one of the most important so-
ciety events of its day. The couple
took a leading part in New York so-
ciety until for many years prior to
the beginning of the divorce pro-
ceedings had not lived together.

Mrs. Vanderbilt's divorce plea and
a countersuit by her husband were
filed with the Paris court on April 26,
the wife charging that she had been
refused access to their domicile in
Paris, and the husband pleading the
wife's coldness of disposition.

Mrs. Vanderbilt raised no objections
to his wife's petition for custody of
their son, William K. Vanderbilt III,
during the formal pleadings.

Friends of the couple have stated
that, following the divorce, Mrs. Van-
derbilt might apply to the Catholic
ecclesiastical courts for nullification
of the marriage on the ground that
she was subjected to undue pressure
by her parents in the matter.

This was the ground on which the
Holy Roman Rota last year declared
null the marriage of the Duke of
Marborough and the former Countess
Vanderbilt.

NEW YORK JAILS FIRST VAGRANT CHINAMAN

NEW YORK, June 2. (Reclusive)
Lung Chee, a Chinese taken in cus-
tody in Brooklyn yesterday, was put
down in police records as the first
Chinese ever to be arrested in the
metropolitan area for vagrancy. He
said he had no home or relatives, an
unusual situation for a Chinaman.
When arrested he had been wander-
ing aimlessly through an outlying
residential district.

A clever socket makes
this a great desk outfit

As a pioneer in fountain-pen ideas, Sheaffer again takes the
far lead with this adjustable ratchet-lock device, by which the
pens may be laid flat so that they may be placed in a drawer
or the roll top of the desk be conveniently lowered. But im-
mediately when needed the pens will adjust themselves to a neat
angle of forty-five degrees and, locked at that angle, may be
turned in any direction. It gives the beautiful, tapering Lifetime
pens, with their brilliant radium barrels, their handsome and
most convenient setting. And these Lifetime desk pens are
guaranteed to keep in unflinching writing condition for a lifetime.

Sheaffer's Pens and Pencils are sold by leading stationery stores in all cities. Write for literature to

BRUINS TO M

Basketball Schedule for
Games Scheduled

The University of California
Southern California will begin at-
tending the championship meet-
ings of the Pacific Coast Confer-
ence tomorrow.

On this date the Bruins and Tro-
jans will have it out on the basket-
ball court, the sport in which the
Bruins have been strong all
year and in which they have
been desired to meet the U.S.C. vil-
lains. Two other games are sched-
uled for February 20 and 21.
It is presumed that all titles will
be played at the Olympic Auditorium
through no announcement to the
fact was made.

HUSKY HALF-MILER

Jimmy Charteris, captain of the Washington Huskies, who are to meet the Pacific Coast Intercollegiate team today at the Coliseum. Charteris is a half-miler, and such a feat as that he is a top-heavy favorite to win his favorite event, the half-mile relay squad's bid for fame and glory.

BRUINS TO MEET TROJANS

Football Schedule for 1928 Arranged; Three Games Scheduled Between Local Rivals

The University of California at Los Angeles and the University of Southern California will begin athletic competition on February 18, 1928. Both of the universities are members of the Pacific Coast Conference, and the football schedule for 1928 has been arranged. The Bruins and the Trojans will meet on the gridiron in three games during the season. The first game will be played on September 22, the second on October 20, and the third on November 17. The Bruins will be the home team in all three games.

ATHLETES IN PRELIMINARIES

Coliseum Scene of Trial Heats This Afternoon

Stanford Heavy Favorite to Annex Honors

Templeton Names 13 Men for Track Competition

With the arrival here yesterday afternoon of Dink Templeton and his Stanford track athletes the stage is all set for the opening of the Pacific Coast Intercollegiate track meet at the Coliseum today. The preliminaries start this afternoon at 2 o'clock, with the finals billed for 3:30 p.m. tomorrow. Tickets to this afternoon's program will also be good for admission to the grand finale.

Fresh from their triumph in the ICAA meet at Philadelphia the Stanford Redshirts are heavy favorites to run off with Coast honors. The Cardinals are likely to place in every field event in addition to knocking off several points on the track with Clarence West and Epe Nichols in the hurdles and Capt. Babcock and Bud Spencer in the quarter-mile.

Templeton had not picked his complete team of fifteen last night, but did name thirteen athletes as already selected. In addition to the four already mentioned they are Hoffman, Foster and Evans, weights; Shipkey, javelin; Meeks, Zombro and Dyer, broad jump; King, high jump; and McLaughlin, pole vault.

BOXER KILLED ACCIDENTALLY

No Charges Against Mandell as Adamczyn Killed in Kansas Bout

KANSAS CITY (Kan.) June 2. (AP)—Announcement by Arthur J. Mellett, County Attorney, today that there would be no prosecution of Sammy Mandell, world's lightweight champion, following the sudden death in the boxing ring of his opponent, Stephen Adamczyn, Chicago, last night, virtually ended investigation into the affair. Mellett said he was convinced the death was accidental.

Dr. J. W. Hayward, coroner, said he was making a personal investigation of the boxer's sudden death after he had fallen into the ropes, adding he believed the death was accidental and that an inquest was unnecessary.

COCHET RATED BELOW TILDEN

"Big Bill" Favored to Win Semifinal Match

LaCoste and Yankee Picked for Final Battle

Rain Halts Franco-American Doubles Clash

ST. CLOUD (France) June 2. (AP)—William T. Tilden was an 11-to-6 favorite today to defeat Henri Cochet, French star, in their semifinal match tomorrow afternoon in the 1927 tennis tournament.

There was any amount of Cochet money available at these odds, however, owing to the Frenchman's mastery over Otto Frothingham, German, yesterday. French tennis fans also believe in a veteran.

The score was 6-3 in favor of the French pair when there was another downpour and the match was abandoned. During the play LaCoste fell headlong on the slippery court and later complained of a pain in the side.

MARKS BEATS ERNO IN CULVER BATTLE

Benny Marks defeated Mickey Erno in the ten-round main event at Culver City last night. Erno gave Marks a weight advantage of six pounds. In the semi-final, Joe Cardona, veteran, defeated Fernando by a technical knockout in the fifth round.

Dick McDaniel knocked out Tony Bolter in the third round of the special event. Bobby Foley boxed a four-round draw with Joe Conner in the opener.

DEMPSEY HERE ON HUNT FOR TOUGH SPARRING PARTNERS

Jack Dempsey, ex-heavyweight champion, is on his way to Los Angeles today on a hunt for tough sparring partners. Dempsey is expected to arrive here tomorrow morning.

Jack has been engaged in a rough game of "put and take" with paid ring assistants during the past few weeks, and as a result the game has become a case of his beefy sparring partners "putting on the gloves" and taking the air on the first train leaving Ojai.

The former Manassa Mauler is engaged in a determined effort to regain the ring form that won him his boxing honors in slugfests and has little money on the varied and diverse heavyweights who have come to speed his predicted come-back by offering partially unprotected jaws for the former champ to shoot at.

If early sparring activities can be depended upon—and if Dempsey ever enters the ring again—it will be to wage a body battle. Dempsey is counting his sparring partners on the mid-sections of a whole flock of uncomfortable but vastly human sparring partners.

Jack seems to take particular delight in sinking gloves in cringing abdomens, and, naturally, is cutting down on operating expenses for to date Jack has ruined the digestion of all who have joined his "knock-down and drag-out" battery.

Dempsey enjoys a peculiar complex where ring foes are concerned, and just can't resist the temptation to let it when anything comes within range of his gloves. Another thing is Jack's ability to remain on his toes. Through a daily routine of bag punching, weight working, shadow boxing and actual work with sparring partners, Jack continues to emulate a toe dancer. All punches are loaded—and the former ex-heavyweight champ is smacking bottoms with well-timed precision.

All of which has to do with Dempsey's unformulated plans to seek a fight with Jean Tunney or Jack Sharkey during the summer.

Jack isn't adhering to a strict training routine through love of money, typical of Bopper's ranch and the Ventura Mountains. For nearly two months now, Dempsey has been working in earnest, hour each day, and as a result has lost fourteen pounds, now scaling about 194. For the first time in his fighting career Dempsey is enjoying the limited life of a big-league training camp.

Little Jerry the Green-shirted towel swinger and tape and liniment major domo, leads the former mitt king on daily cross-country jaunts. Jerry starts to lead but the "champ" picks up his own pace—and invariably creates the tape, well in advance of all followers.

Jerry gets his breath and starts rubbing. Dempsey rests for a few minutes and starts working. To date, Jack has found it more fun to crack down on sparring partners than on sand bags—so late every afternoon—a flock of gloom settles down over the camp—but Jack's battling face—with a smile that no man will

TONIGHT'S PUZZLE

LATZO DUNDEE TANGLE

Welter Champion Defends Crown in New York; Acc After Winner

NEW YORK, June 2. (AP)—A close and keenly fought battle between two well-matched young fighters is expected tomorrow night when Pete Latzo, the former main boy of Beranton, Pa., defends the world's welterweight championship against Joe Dundee, Baltimore Italian, at the Polo Grounds.

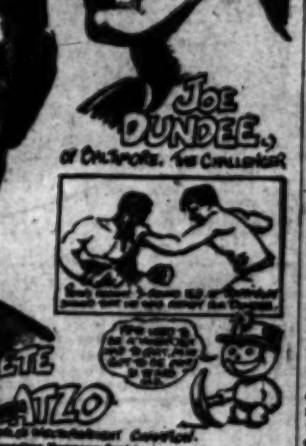

Where any odds existed, they were slightly in Latzo's favor, but the majority of critics looked on the match as a toss-up, with chances favoring its going the limit of fifteen rounds.

GEORGE SOUDERS IS HERO IN LAFAYETTE

LAFAYETTE (Ind.) June 2. (AP)—George Souders, newly-crowned hero of the 200-mile speedway race at Indianapolis Memorial Day, received a tumultuous welcome on his return to Lafayette, his home town, and Purdue University. The former Purdue student, who a few weeks ago was a comparatively unknown dirt-track driver, received a big turnout on the Purdue campus after a motor parade through town headed by two bands.

WHAT? US TRACKMAKERS GOT TO A TRACK MEET ON OUR DAY OFF? WHY THE IDEA!

WRIGHT WRONGS INDIANS

Doc Turns in Tenth Victory of Season by Hurling Angels to 3-to-1 Victory Over Sealtle

SEATTLE, June 2. (Exclusive)—Wayne "Doc" Wright, whose presence in Big Stone Gap, Va., during the winter gave that thriving metropolis two champions, turned in his tenth victory of the season here today when he pitched the Angels to a 3-to-1 decision over the Seattle Indians.

The Indians scored one run off Wright in the first inning, but after that the home talent didn't have a chance. Red Killefer and his athletes even went so far as to tell Doc that they wish they had stayed in Big Stone Gap all the year round instead of just during the winter.

Wright was given a hurling argument by Eyle Graham, who yielded only five hits to Doc. However, Graham gave the Angels a run with his wildness in the first inning, so the clubs started the second round even.

Big Stone Gap's second dentist helped win his own game in the second when he ranned out a double and later scored with the Angels' second run.

Art Wells wound up the scoring in the seventh when he batted out a home run with the bases empty. Score: Los Angeles, 3; Seattle, 1.

Wright's record is now 10-0. He is the only pitcher in the Pacific Coast League who has won ten games in a season.

AMERICAN PROFESSIONALS MEET BRITISH GOLFERS IN RYDER CUP TOURNEY TODAY

WORCESTER (Mass.) June 2. (Exclusive)—Experts are divided on the chances of the American team against British invaders in the Ryder Cup matches which will get under way tomorrow morning.

Not a few of those who follow closely the progress of the professional golfing clan, both in this country and abroad, are conceding the American team victory by a slight margin.

The absence of Abe Mitchell, of Great Britain from the line-up of the invaders has resulted in some of the experts installing the home birds as slight favorites.

The veteran Ted Ray, a golfer more than fifty years of age, is captain of the British team, but this does not mean that he will play at No. 1. Ray will be the oldest player in the Ryder Cup competition. Hagen, at 54, is the oldest American.

The two-ball foursomes will be played tomorrow and the singles on Saturday.

In the absence of final word from Hagen and Ray, the rival captains, as to the names of the players who will be called upon to uphold the order named on the British team, the following men will be nominated in the order named on the British team: No. 1, Duncan; No. 2, Boomer; No. 3,

WRIGHT WRONGS INDIANS

Doc Turns in Tenth Victory of Season by Hurling Angels to 3-to-1 Victory Over Sealtle

SEATTLE, June 2. (Exclusive)—Wayne "Doc" Wright, whose presence in Big Stone Gap, Va., during the winter gave that thriving metropolis two champions, turned in his tenth victory of the season here today when he pitched the Angels to a 3-to-1 decision over the Seattle Indians.

The Indians scored one run off Wright in the first inning, but after that the home talent didn't have a chance. Red Killefer and his athletes even went so far as to tell Doc that they wish they had stayed in Big Stone Gap all the year round instead of just during the winter.

Wright was given a hurling argument by Eyle Graham, who yielded only five hits to Doc. However, Graham gave the Angels a run with his wildness in the first inning, so the clubs started the second round even.

OBSERVATIONS

BY THE UNOCCUPY STANDER, BILL HENRY

FROM all accounts the Pacific Coast Conference managers struggled through their meeting yesterday afternoon without any bloodshed and will probably continue to do so.

Manager of the Los Angeles team, however, the organization is going to have a "Judge Landis" to settle its disputes.

Heaven protect us from having such an inveterate censor as a manager who rules dramatically over the baseball world, but what we need is some body more along the lines of Maj. Griffith of the Big Ten.

In all probability the Coast managers will be able to settle their disputes without any such drastic action as they have in the past, but the organization is becoming rather large and unwieldy.

Every year more members acquire strength and demand rights and privileges. If they don't have a central authority within the next two or three years we'll be surprised.

Of course, to all of those who have seen the Huddles in action, the Huddles is a very tough-looking fellow. But to those who view the low-headed terror in the Huddles for the first time, he is a most deceptively harmless looking fellow.

His calm complexion and flat chest give the impression that he is far from being the rugged individual that he really is. He certainly has none of the outstanding characteristics ordinarily associated with him.

RABBIT PUNCHES

JOE LEVY, former Olympic

matchmaker, seems to have

tramped right into Portland

to the place of triumph. In

reveling over his appointment as

matchmaker of the Portland

Commission one of the Rose

City's afternoon newspapers

announced in bold, black type—

"Joe Levy New City Boxing King."

While the "king" part is something a modest, unassuming

man in this city, he should make

Portland struggle a darn good

matchmaker. Levy is always

how to match 'em to get the

best results. His experience in

the fight game dates back many

years. Young McCarry in the

old twenty-round days and with

Joe Rivers, whom he nearly

knocked into the light-weight

championship, Levy is a

man who picked Ad Wolgast of

the floor while he counted Rivers

out. Joe put a lot of good fights

into the Olympic and played to

some of the biggest fight crowds

in the city's history.

Some of the boys have been

having fun with Clyde Huddles

over the nationality of his

service. Levy, former Gen-

sales, who fights Baby Joe Gans,

an admitted Ethiopian, at the

Olympic next Tuesday night. The

RUETHER HURLS SHUTOUT BALL

Lyons Wins Ninth Contest as Sox Pound Sox, 7-2

Senators Mangle Brown Staff and Collect, 11-2

Macks Pound Shaute to Win from Indians, 8-4

NEW YORK, June 2. (AP)—The Yankees played snappy ball behind Dutch Ruether's great pitching and shut out the Detroit Tigers today by 3 to 0.

Ruether yielded only two hits. Ruether pitched one of his best games since coming to New York and in seven of the nine innings only three men faced him.

Stoner also pitched well for the Yankees, but New York managed to bunch four of its eight hits in the fifth and sixth innings for two runs. Stoner suffered his first defeat of the season. Score:

BAPTISTS HEAR DRY-LAW TALKS

Convention Speakers Urge
Removal of Obstacles

Anti-Saloon League Leader
Turns Fire on Smith

Women Advised to War on
"Wet" Newspapers

CHICAGO, June 2. (P)—Obstacles to the complete enforcement of the prohibition laws were pointed out and ways of removing them suggested by two leaders of reform organizations and a member of Congress at today's session of the Northern Baptist Convention here.

"Wet" newspapers that hold the law up to ridicule, spew of voters "old grads" who take liquor to their alma maters and society leaders who introduce alcoholic beverages at their

RIDER IN SADDLE TWO YEARS

Argentinian on His Way to
New York Reaches
San Salvador

SAN SALVADOR (Republic of Salvador) June 2. (P)—Alma H. F. Tschiffely, Argentine schoolmaster, who is riding two horses from Buenos Aires to New York to prove the staying powers of Argentine horses, has arrived here.

He started in 1925, riding across the Andes to Bolivia and Peru, and then along the west coast to Panama. The next country he will visit is Guatemala, after which he will proceed through Mexico and on to San Francisco, Cal., and across the North American continent to New York.

gatherings are chiefly responsible for opposition of the law, said Mrs. Ella A. Boole, national president of the Women's Christian Temperance Union.

Election and selection of officers "from President to constable" who will enforce the law, was offered as a remedial course by Grant M. Hudson, member of Congress from East Lansing, Mich.

ULTIMATUM URGED

F. Scott McBride, general superintendent of the Anti-Saloon League, urged an ultimatum to those who dislike the dry laws "to go out in the Atlantic Ocean, build an island of your beer kegs and select Nicholas Murray Butler or Al Smith as your leader."

This Governor of New York who nullified State's rights by signing a bill to repeal his State Enforcement Act wants to transfer his activities to the White House," said McBride.

"Are we going to let him?"

"No," shouted former Congressman William D. Upshaw of Atlanta, Ga., who was sitting on the speakers' platform as a visitor. His negative was taken up by scores in the audience.

WOMEN AND NEWSPAPERS

The women can "take care" of the "wet" newspapers, Congressman Hudson declared, and amplified this by suggesting that they refuse to patronize stores that advertise in "dripping" newspapers.

The only opposition to prohibition comes from the "wet fringes along the Atlantic and the large cities which largely are un-American," asserted Hudson.

W. C. Coleman of Wichita, Kan., a layman, was nominated for president of the convention.

The nominating committee reported its nominations today without objection and unless other candidates are offered from the floor tomorrow the committee choices will be elected without opposition.

Body of Missing Oakland Music Teacher Found

OAKVILLE, June 2. (P)—The body of W. R. Douglas, Oakland high school music teacher who disappeared Saturday while on an outing near Lost Lake, Butte county, was found late today beside a small creek near the camp where Douglas and his friends had stopped. Circumstances indicated that he had died of heart disease as he bent over the creek to drink.

The body was found by A. L. Bean of Strawberry Valley, and William Baker of Los Angeles. Baker was camping near Lost Lake, but accompanied Bean into the woods to hunt for Douglas.

An extensive search had been organized since Douglas was reported missing. His wife scouted the theory that he had been drowned in Lost Lake, and Douglas's friends agreed with her, saying he was an expert swimmer.

Edge Advocates Raising Limit of Tax Reduction

WASHINGTON, June 2. (P)—Tax reduction of even more than \$500,000,000 was advocated today by Senator Edge of New Jersey, a Republican member of the Senate Finance Committee, at a conference with President Coolidge.

Senator Edge would raise the \$500,000,000 limit suggested by other Republican leaders and would consume all the prospective surplus in the reduction program, contrary to the policy of the Treasury in saving a margin with which to work on.

"I believe large surpluses," the New Jersey Senator said, "are too inviting of Congressional expenditure."

He proposed that the 13 1/2 per cent corporation tax be cut at least 1 per cent or more. He believed the national surplus 20 per cent should be reduced and the balance tax repealed, but he favored retention of the levy on automobile pleasure cars.

Coolidge Leaves Today for First Review of Fleet

WASHINGTON, June 2. (P)—President Coolidge will leave tomorrow afternoon for Hampton Roads to review America's fleet for the first time on Saturday.

The Presidential yacht Mayflower will be used by Mr. and Mrs. Coolidge and their party in going to and from the reviewing grounds of Cape Henry, which will be reached early Saturday.

Secretary Wilbur and Admiral Eberle, chief of naval operations, are among those invited by Mr. Coolidge to accompany him on the Mayflower.

The return trip to Washington will be started immediately after the review, but it is not likely that the Mayflower will dock here until Monday morning.

WASHINGTON, June 2. (P)—President Coolidge will leave tomorrow afternoon for Hampton Roads to review America's fleet for the first time on Saturday.

The Presidential yacht Mayflower will be used by Mr. and Mrs. Coolidge and their party in going to and from the reviewing grounds of Cape Henry, which will be reached early Saturday.

Secretary Wilbur and Admiral Eberle, chief of naval operations, are among those invited by Mr. Coolidge to accompany him on the Mayflower.

The return trip to Washington will be started immediately after the review, but it is not likely that the Mayflower will dock here until Monday morning.

WILBUR URGES LIFE OF SERVICE

Secretary Addresses Class at
Naval Academy

Declares Their Profession
Includes Diplomacy

Asserts Each Day Brings
Chances for Success

ANNAPOLIS (Md.) June 2. (P)—Addressing the graduating class at the Naval Academy here today, Secretary Wilbur congratulated its members upon the successful completion of their course, but warned that the knowledge they have acquired is but the foundation for their life work.

"In the profession you have chosen," he declared, "there has been no great advance in the means of offense and defense that even in a lifetime you cannot hope to acquire all the knowledge in its several branches."

MANY BRANCHES INCLUDED

Emphasizing that the activities within the naval profession include not only communications, gunnery, navigation, naval construction, aviation, law, engineering and other arts, but diplomacy and government as well, the Secretary said:

"A naval officer, Admiral Bristol, is just returning from a long term of service as a diplomat at Constantinople. Others are returning from the conference at Geneva for the limitation of armaments. Others will soon depart for the conference between England, Japan and America at Geneva, where the naval powers of these nations will be considered."

CITES NAVAL MISSIONS

"The naval mission to Brazil and Peru, where our officers are co-operating with these nations in the up-building of their navy, illustrate the importance of the naval office in the maintenance of friendly relations between nations. Naval officers at Samoa, Guam and the Virgin Islands are acting under the President as governors, and upon their capacity as leaders and governors, the happiness of their people in no small degree depends."

"Near-Admiral Latimer in Nicaragua, and Admiral Williams in China are charged with great responsibility for the welfare of our own people and those of Nicaragua and China, respectively."

The Secretary told the graduates that their success "does not lie in the stripes of the admiral which now seem so far distant to you," but that each day has its opportunity for success or failure, and its close marks a success or failure.

Secretary Wilbur placed a diploma in the hands of each of the 100 graduates after the assembly had been addressed by Rear-Admiral Louis M. Nulton, superintendent of the academy.

Thirty-five graduates resigned because of physical ailments. Twenty-five were transferred to the Marine Corps, seven to the Naval Supply Corps and 501 were sworn as ensigns in the line.

Count Tolstoi Given Divorce From American

PARIS, June 2. (P)—Count Cyril Petrovich Tolstoi, who in recent years has been proprietor of a fashionable riding academy in Paris, was granted a divorce today from Eleanor McCormick, formerly of Seattle, Wash. It was learned when the decree was registered that the Countess attended the University of Washington.

Count Tolstoi is said to be a distant relative of the Russian novelist. The Countess is the daughter of the late R. C. McCormick, Seattle real-estate operator, who died in 1921. She is 27 years of age. She met the Count while touring Europe with her mother, Mrs. Bronie W. McCormick.

In the spring of 1924, when the Count was in the Russian diplomatic service at Bagdad, on the Adriatic coast. After attending the University of Washington here, the Countess was graduated from Stanford University.

Previous to her marriage to Count Tolstoi, the Countess was married to Phillips Dickinson, son of a railroad magnate in Chicago, in 1923. They were divorced in less than a year.

Tampa Riot at End; Thirty Placed in Jail

TAMPA (Fla.) June 2. (P)—Tampa was quiet this morning. Apparently the "seige" of the Hillsborough County Jail was at an end.

After three nights of rioting, which took a toll of five killed and more than a score wounded as mobs of infuriated civilians sought to enter the jail to take a confessed murderer, 1000 special deputies enforced a 5 o'clock curfew throughout the city last night and there was peace.

Thirty arrested members of the mobs were under arrest today awaiting action by a grand jury.

Throughout the rioting, the object of the mob's wrath, B. F. LeVina, who had confessed he killed Herman Merrell, his wife and three children, thinking they were another family who had done him a "dirty trick," was safe from their fury, imprisoned in another county, officers announced.

NEW CONSTITUTION ADOPTED BY GREEKS

ATHENS (Greece) June 2. (P)—The Chamber of Deputies has adopted the new Greek Constitution whose text will be published shortly.

SUFFRAGE PIONEER PASSES

HARTFORD (Cl.) June 2. (P)—For forty years Prof. G. E. Young lived and worked in Hartford surrounded by souvenirs of his travels and studies and of the woman suffrage movement in which he had labored.

Then came a fire in the building last January and he was removed for safety. Monday he left the room for a second time. This time his destination was the hospital, where he died of hemorrhoids, which had long

held him prisoner. He was 74 years of age.

Prof. Young was conversant with twelve languages and eight dialects. His incarceration was devoted to teaching these and to writing. He was a pioneer in the woman suffrage movement and did much writing on the subject.

On his thirty-third birthday, Prof. Young fell off a sixty-foot cliff to a sand bar at one of the Southern European watering places. He was never able to walk thereafter.

ROTARIANS WILL AVOID MEDDLING

World Congress to Focus
on Action in Any Pending
International Question

S. S. CARINTHIA, June 2. (P)—The board of directors of Rotary International, who are en route to Ostend to attend the International Rotary convention, have issued a statement discouraging action by Rotary clubs on international questions pending between governments.

The statement was made in disposing of a suggestion of the Anascondo (Mont.) club for a joint committee of American and Mexican Rotarians to agree on recommendations for preserving friendship between the two countries.

CHERBOURG (France) June 2. (P)—The Ministry of Marine has ordered the French torpedo boats Marceau and Sakalava to Ostend, where the International Rotary congress will be held next week.

JOHN WHITLEY, RAIL
CONTRACTOR, DIES

SAN FRANCISCO, June 2. (P)—John H. Whitley, 57 years of age, a railroad contractor who, with his brother, constructed many railroad projects in Oregon, Washington and California, died here yesterday of heart disease. Work on portions of the Western Pacific Railroad formed a part of his construction achievement.

Whitley is survived by his mother, a brother and two sisters.

NEW ATTACK ON COAST EXPOSED

Evidence of Plot to Crush Trade Here Given

Freight Charge Absorbed to Kill Infant Industry

Commission Promises Action to Scotch Practice

WASHINGTON, June 2. (Exclusive)—Further evidence of efforts by strongly entrenched eastern industries to throttle Pacific Coast competition by paying the freight for the West Coast trade has been called to the attention of the Federal Trade Commission since the commission filed its complaint in the Wheeling case involving the manufacture and sale of range boilers.

Commissioner Humphrey, who unearthed the Wheeling case after the commission's experts were about to dismiss it, said he believed the Wheeling case will serve as a precedent and will put an end to this practice in all industries.

Three Pacific Coast manufacturers have called the attention of Commissioner Humphrey to similar competition they are up against, which the commission describes as a new idea in cut-throat business methods. Instead of cutting prices these eastern manufacturers have accomplished the same result by selling their product to a San Francisco wholesaler for the same price they would sell the same article at the factory door in New York City.

"Killing the infant Pacific industry by absorbing the freight charges was one of the most threatening practices I have run across in my experience with the Federal Trade Commission," said Commissioner Humphrey. "If this practice was allowed to continue it would wreck havoc with many of our smaller industries in the Pacific Coast that are just beginning to get a hold. We hope to scotch the whole business by forcing an order to desist in the Wheeling case. It will be a precedent that other manufacturers can look to and understand that a similar order will meet them if they adopt similar practices."

Humphrey said the complaints, which were made to him personally, must be kept confidential.

WOODMEN COMMANDER DENIES SUIT CHARGE

OMAHA (Reb.) June 2. (P)—Charges contained in a suit filed May 30 against the Woodmen of the World, Omaha, by William B. Price, Lincoln attorney, were declared to be "absolutely false" by W. A. Fraser, Governor Commander, in an answer to the suit filed in district court here.

In reply to Price's charges that officers had benefited financially from the sale of the W.O.W. skyscraper here, Mr. Fraser said that these were "baseless and unfounded falsehoods."

"We received \$1,000,000 cash for the building, plus rental," he explained. "That is a good price. Neither I nor any of my family benefited to the extent of a 5-cent cigar or a bottle of pop from the sale of this building."

BELGIUM'S ENVOY HAS QUIT POST

De Marchienne Resigns as Ambassador to Washington; Assigns No Reason

WASHINGTON, June 2. (P)—Baron De Cartier de Marchienne, Belgian Ambassador, has resigned his post here and will sail for home on June 26.

He had notified the State Department of his intention to return to Belgium, but reasons for his resignation were not disclosed at the department. His successor has not yet been named. The Belgian Ambassador, Sir James Howard, the British Ambassador, succeeds the Belgian as chief of the corps.

Wilkins Returns to Point Barrow After Take-off

POINT BARROW (Alaska) June 2. (Exclusive)—Capt. Wilkins and Alger Graham took off Tuesday night on what they had hoped would be a direct flight to Grant Land, but visibility was so bad that they returned. While aloft Wilkins witnessed: "Two hours over clouds. Can't see anything. Returning."

The take-off of the Detroit News-Wilkins Expedition plane, in which Capt. Wilkins hoped to find undiscovered land in the Arctic, was made with the skills standing in from six inches to three feet of mushy snow and water. Reversing the plane carrying a total load of 2015 pounds, the take-off succeeded on the first trial.

On the return to Point Barrow Capt. Wilkins stopped at Beechey Point to leave fifty-five gallons of gas at the trading post there.

Capt. Wilkins will set out for Grant Land again as soon as weather conditions are favorable.

Healing Cults Thrive in State, Doctor Avers

SAN FRANCISCO, June 2. (Exclusive)—There are no less than twenty-seven different healing "cults" in California where people flock in search of health, Dr. Edgar L. Gilchrist, secretary of the Pacific Coast Surgical Association, declared today in an address before the public health division of the Commonwealth Club.

"Aliments caused by the imagination," he said, "and quacks thrive curing people of diseases they don't have. It makes little difference whether they 'cure' with a magnetic touch, by prayer, by a charm or relic, by manipulations, by electronic reactions, by a drug or drugless method or even by the latest electric belt—the cure is in the convincing."

"Transient methods appeal to transient people. Promoters realize the people they fool today are gone tomorrow. The sick and the patients doctors get have been first treated by these pseudo-medics."

DR. L. W. AUSTIN GETS 1927 RADIO MEDAL

NEW YORK, June 2. (P)—The 1927 medal of honor awarded annually by the Institute of Radio Engineers for "the greatest advance in the radio communication" has been presented Dr. L. W. Austin, physicist of the special radio transmission research laboratory of the United States Bureau of Standards.

STRIKE MURDER CASE DEFENDANT TESTIFIES

SAN FRANCISCO, June 2. (Exclusive)—Testimony of George Pease, one of the two defendants in the retrial of the carpenters' strike murder case, took up the major part of today's court sessions before Superior Judge Conlan. Pease reiterated his previous story of mistreatment at the hands of police to writing from him a confession of participation in strike terrorism. Pease and Gus Madison, the other defendant, scored a point not gained in the previous trial, when Dr. John F. Lagan, who testified before that he had treated Pease for a scalp wound the day MacIvan Campbell, nonunion carpenter was killed, said today that the wound apparently was about four days old at the time.

PORTUGUESE FLYER DOWNED BY STORM

RIO DE JANEIRO, June 2. (P)—Maj. Garminto Beltrame, Portuguese aviator, who left Rio de Janeiro yesterday morning on the first lap of his return flight to Portugal, was forced by darkness to come down at Ilheus, 180 miles short of his destination, Bahia, says an announcement of the National Telegraph.

He is quoted as saying that he would take off from Ilheus, about 540 miles to the Brazilian coast from Rio de Janeiro, for Fort Natal.

MAJ. ALBERT N. JUDD DIES

WATSONVILLE (Cal.) June 2. (P)—Maj. Albert N. Judd, 94 years of age, a pioneer citizen of Watsonville, and a G.A.R. official, died at his home here today as the result of a stroke of paralysis several days ago. He was a native of Massachusetts. He leaves his widow, one daughter and two sons.

BIBLE CITED IN 'KING'S' DEFENSE

Lawyer Says Purnell Based Teachings on Gospel

Claim of Brotherhood to Jesus Asserted

Leader Pictured in Trial as Trembling Monarch

ST. JOSEPH (Mich.) June 2. (P)—Attorneys for the House of David turned to the Scriptures today in an effort to impeach the testimony of Mrs. Esther Hanesel, star witness for the State in the dissolution proceedings against the colony here.

J. J. Barnard, chief defense counsel, declared that Benjamin Purnell, who Mrs. Hanesel asserted set himself up as the Savior of all believers, based his statements and teachings on the Bible. When Purnell told his followers to lie if necessary to "save the kingdom," the defense meant it necessary to give strangers to the faith only part of the truth, Barnard argued.

Mrs. Hanesel insisted Purnell meant what he said. The witness averred Purnell imbued the colonists with the belief that he was a younger brother of Jesus. Benjamin claimed he would lead all Israelites to everlasting life, she said.

DENIES INDUCEMENTS

He claimed to be the resurrection and the life for Israelites," Mrs. Hanesel testified. The former child girl declared that she belongs to no church.

Barnard charged Mrs. Hanesel rounded up witnesses for the State by promising them financial gain. Mrs. Hanesel denied she told her sisters they would "get something" if they testified for the State, but would go to prison if they took the stand for the colony. She admitted accepting \$8 a day and expenses from the State prior to her testimony. She was traveling around interviewing former members of the colony, she stated.

The witness declared Purnell handled all the colony funds. At one time he had \$100,000 in a safe in his room, she declared. The colony depended only enough money in the bank to meet current expenses—Purnell keeping the rest, she asserted.

TREMBLING MONARCH

Purnell was pictured as a trembling monarch who constantly feared arrest. Mother Hubbard, gown, a red wig and a coronet were kept in readiness so he could flee if the need arose. Mrs. Hanesel said Purnell described a network of tunnels she said ran through the colony grounds. They were avenues of escape for Purnell, she said. All have been reported and filled in now, she continued.

Mary Purnell, Benjamin's wife, was linked with the "king" as an instigator of plots to protect the colony. Mrs. Hanesel stated Mary asked her to write a threatening letter to two girls when they were about to start suit. The witness said she refused to carry out the order and incurred Mary's displeasure.

Court Council to Meet Today in Los Angeles

SAN FRANCISCO, June 2. (P)—The Judicial Council of California, with Chief Justice William H. Waste of the Supreme Court as its chairman, today announced plans to meet in Los Angeles tomorrow and Saturday to outline a two-year program and complete organization.

The Legislature conferred upon the council the power to appoint such officers, assistants and employees as might be necessary to carry on business, to determine their duties and to fix their salaries, which are to be paid out of the budget appropriation for the council. An executive secretary and other officials are to be appointed at the coming session.

Before leaving for the south, Chief Justice Waste listed the problems of the council as, first, simplifying probate procedure; second, expediting judicial business, and, third, recommending changes in the Civil Code.

Drew's Condition Called Serious but Not Critical

SAN FRANCISCO, June 2. (P)—The condition of John Drew, 74 years of age, "Dean of American actors" who has been confined in a hospital here since Tuesday with a rheumatic affliction, was reported "still serious, but not critical" today.

STRAIT-JACKETS DOOMED

State Director of Institutions Plans Elimination of Torture Devices for Handling Insane Patients

SACRAMENTO, June 2. (P)—Strait jackets, "cain-clothes" and numerous other medieval devices for handling violently insane patients soon will be entirely eliminated in California's State hospitals, if the plans of Earl E. Jensen, new director of institutions, are realized.

Jensen declares he has reduced by nearly a half the use of these mechanical devices in treating and soothing patients with violent attacks and substituted more scientific and humane methods.

Jensen said he was surprised to find to what extent the strait-jacket was in use in California. Reports, he said, had come to his attention of particularly cruel treatments, and in several instances patients had been left in straitjackets all night—not because of the fact that the violent attacks lasted that long, but because the patients were less troublesome.

These barbaric and heartless methods of treatment must give way to progress," he said. Continuous baths and wet packs are now being used in most hospitals as methods of calming violent patients. Results from these treatments were said by Jensen to justify the elimination of the straitjacket and many other similarly tortuous devices.

Jensen said he also found conditions in the hospitals bad—in many instances there not being enough beds to accommodate all of the patients, and many sleep on the floor. This condition has been corrected, he said.

JEROME K. JEROME, BRITISH AUTHOR, ILL

LONDON, June 2. (P)—Jerome K. Jerome, the noted British author, is seriously ill.

City in Kansas Partly Wrecked by Windstorm

DODGE CITY (Kan.) June 2. (P)—About twenty-five houses were unroofed and fifty more otherwise damaged when a tornado swept through the heart part of Dodge City today, causing damage estimated at \$90,000.

The tornado struck at Ford, eighteen miles southeast of here, demolishing a new business building and damaging several other structures. A windstorm which accompanied the twister here felled trees and strewn limbs over the street in all parts of the town.

Airplanes were crushed when the building housing them at the Dodge City airport was demolished.

PRINCESS CHRISTENS AUSTRALIAN CRUISER

LONDON, June 2. (P)—Princess Mary yesterday christened the battle cruiser Canberra which was launched on the Clyde before a large crowd. The Canberra, named after Australia's new capital, is the second battle cruiser built on the Clyde for Australia. The first cruiser is now being fitted out.

COUNTIES MAKE TAX PAYMENTS

Receipt of \$3,606,018.48 by State Announced

Inheritance, Property and School Levies Included

Los Angeles Contributes Largest Share

SACRAMENTO, June 2. (P)—Receipt of \$3,606,018.48 from the various counties in the semiannual settlement of inheritance, property and school land taxes and exchequer estates was announced today by State Controller Riley.

The inheritance tax payments made up the major part of the total, \$2,285,283.61 coming from this source, of which \$1,463,500.82 was paid by Los Angeles and \$1,500,000 by San Francisco. The payments for all charges by these counties also was the largest; Los Angeles contributed \$1,261,524.50 and San Francisco \$1,125,545.50.

In addition to the inheritance tax payments the receipts were as follows: Property taxes, \$2,181,445; sale of tax deed land, \$173,982; Whittier school, \$21,711.77; Fresno, \$67,204.34; California School of Girls, \$11,909.85; Sonoma, \$109,735; Mendocino and Stockton hospitals, \$430; advertising school land, \$50; school land principal, \$200.15; school land interest, \$17,210.52; school land penalties, \$317.13; poll taxes, \$60.38, and estates of deceased persons, \$25,504.44. The payments for the corrective and medical institutions represented the counties' share of caring for the inmates.

POSAM IS THE QUICKEST WAY TO END ECZEMA

Poslam is so CONCENTRATED that it stops itching instantly. It often heals eruptions completely before other skin remedies have even begun to give relief. If you want skin health get Poslam TODAY at your druggist—50c.

MUSCOY

Success In Poultry on an Income Country Homesite

depends on your having an acre or more of first-class land at so low a price that earnings are not eaten up by heavy interest charges on deferred payments. A fraction of an acre bought on a basis of \$2000 to \$4000 per acre, is a load you cannot afford to carry.

The best poultry authorities advise an acre or more—preferably from 2 to 5 acres—at a cost of from \$500 to \$1000 an acre; enough land for green feed production with plenty of room for houses and outside runs, where you can expand your operations.

In addition you need part of this land for growing fruit, berries or other produce to increase your income from poultry or rabbit breeding. Diversification means a bigger and surer income throughout the year.

Study the poultry and homesite income business carefully and you will see the necessity for following this advice if you expect to succeed.

Foresight now may prevent a disastrous experience later.

Muscoy Income Homesites at \$500 Per Acre

offer the best assurance of success in developing a substantial cash income every week of the year that you can find in all this great Los Angeles area.

At Muscoy You Have

Full acres of deep, rich soil yielding maximum fruit, berry and vegetable crops.

Unlimited irrigation water under pressure in steel mains at one of the lowest water costs in Southern California.

Gas—Electricity—Hard-surfaced streets.

All Schools—Primary to Junior University—with free bus service.

Transportation by Santa Fe, Union Pacific, Southern Pacific and Pacific Electric Lines.

Best poultry and rabbit breeding stock at lowest cost from the Company's demonstration farms.

Free poultry and farm advice by our staff of experts at all times.

10 Minutes from Center of City of 40,000. One of the Best and Fastest-growing Communities in Los Angeles Area—All City Facilities.

Muscoy, from every standpoint, is the ideal community of income, Homesites. It offers the best advantages at lowest cost, with delightful scenic surroundings and healthful climate the year around.

Acres bought here in the pathway of big activity and development assure future profits from rising land values for coming city development. Small down payment and easy terms.

For further details call at one of our offices or telephone. We will gladly take you to see the property without obligation on your part. Or mail the coupon for our illustrated booklet on Muscoy Opportunities.

LINCOLN-BUILT means the BEST MATERIALS and FINEST CRAFTSMANSHIP money can buy.

»A Tribute to a New Plan of Home Ownership

Scores and scores of charming Lincoln-Built Homes, erected for prominent business and professional men, attest the soundness and desirability of the Lincoln Plan of Home Ownership. You will find these exquisite homes in nearly every select residential section of Los Angeles and suburban cities.

THE ONE great ambition of every man and woman is to own a truly fine home... a home so planned and so built that it will reflect his or her individuality and personality.

In presenting the Lincoln Plan of Home Ownership, a little more than a year ago, we had in mind but one definite objective; To provide the most practical, the most economical, and the most complete method of home building possible... to the end that the ownership of such a home could be more easily attained. To build each home according to the very highest standards of authentic architecture and sound construction.

Today, as we drive through the beautiful residential districts of Southern California and view the scores and scores of Lincoln-Built homes... when we see the happiness and contentment which these homes have brought to their owners... we are more than ever convinced that the aims, the purposes, and the ideals which prompted us to launch such a plan are truly worth while.

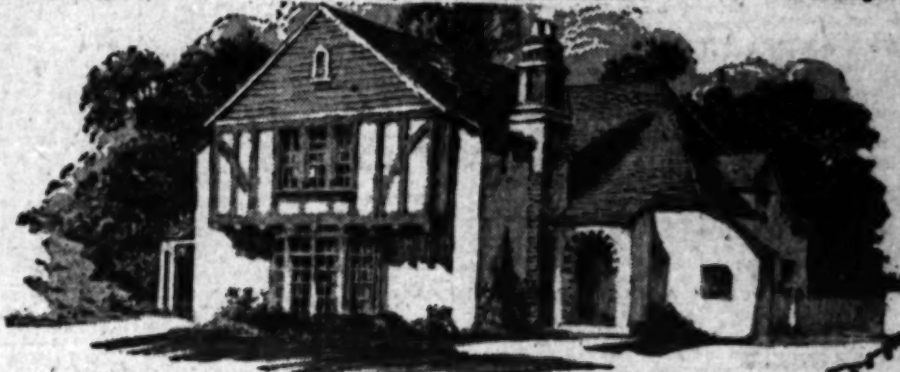

From its inception, this new plan has enjoyed the unqualified confidence of the public. This confidence, expressed in so many different ways, has been a leading factor in its success and a continuous source of inspiration.

We are proud of the Lincoln-Built Homes. They are a silent tribute to our pledge to construct every home of "The Best Materials and Finest Craftsmanship Money Can Buy." They are as staunch as the New England house which has endured for decades; they are built with a scientific exactness comparable to the modern skyscraper; they are designed by leading architects of Southern California, and their distinctive beauty and charming individuality can be traced to the ingenious skill of these noted artists.

The soundness of the Lincoln Plan and the substantial character of the Lincoln-Built House reflect the prudent management and conservative policies which have been consistently maintained by these men, who are well identified with the great commercial development of Southern California. They have had the vision to see and the will to utilize the splendid opportunities offered for community service by furthering the interests of the sincere home-seeker in every possible manner.

NEW FINANCING FOR BILTMORE

Holding Company Plans Issue to Construct Annex

Band and Stock Offerings of \$3,500,000 Proposed

Program Up to Stockholders at Meeting July 26

To partly provide funds for the construction of the proposed addition to the Los Angeles Biltmore Hotel, stockholders of the Central Investment Corporation, which owns the hotel, will meet in special session July 26 for the purpose of approving an increase in the corporation's capitalization and bonded indebtedness.

Subject to authorization by the stockholders of the required financing, the board of directors of the Central Investment Corporation has agreed to meet the addition to the Biltmore, and the Los Angeles Biltmore Company, which operates the hotel, has agreed to lease the same for twenty-five years from completion, at an annual net rental amounting to 8 per cent of the cost of the land, plus 1 per cent of the cost of the building. The lease will be secured by a first-lien chattel mortgage on the furnishings, which the company will install in the addition at a cost of not less than \$600,000.

The cost of the project, including the land to be purchased in addition to the \$3,500,000, and it is proposed to finance the project through the sale of \$3,500,000 of first mortgage bonds, and \$3,500,000 of second mortgage bonds. It is planned to offer to the present stockholders the right to subscribe to the additional stock pro rata in proportion to their respective holdings.

The retirement of the bonds will be provided for during the life of the lease, and will be calculated so as not to interfere with the present earnings of the corporation, and the retirement of the bonds will be provided for during the life of the lease, and will be calculated so as not to interfere with the present earnings of the corporation, and the retirement of the bonds will be provided for during the life of the lease, and will be calculated so as not to interfere with the present earnings of the corporation.

ESPEE LINE SECURITIES EXPECTED

Issue of 4 1-2 Per Cent Gold Bonds for Oregon Unit Due on Market Today

An issue of \$20,000,000 Southern Pacific Company, Oregon lines, first mortgage 4 1/2 per cent gold bonds, which are legal investment for savings banks in New York and Connecticut, is expected to be offered in this market today, by a banking group headed by Kuhn, Loeb & Co.

Other financing announced for the day includes an issue of \$1,700,000 Alton-St. Louis Bridge Company first mortgage sinking fund 7 per cent gold bonds, an issue of \$1,000,000 First Holding Corporation 6 per cent cumulative preferred stock, and an issue of \$600,000 of first mortgage 6 per cent gold bonds of the Idaho Power Company.

A banking group composed of Biting & Co., Drake, Riley & Co., Oliver, J. Anderson & Co., and William H. Compton Company is marketing the Alton-St. Louis Bridge issue at 100 and interest to yield 7 per cent. The bonds will be secured by a first mortgage on all properties of the company, including its franchise for the construction of the highway toll bridges and connecting highways across the Mississippi and Missouri rivers.

Walter, Witter & Co. and William H. Compton Company will offer the preferred stock of the First Holding Corporation at 100 and dividends to yield 6 per cent. The corporation has been organized under the laws of California for the purpose of acquiring and improving the property of the city of Pasadena, for the use of the affiliated institutions, the First Trust and Savings Bank and the First National Bank of Pasadena.

The Idaho Power Company bonds will be marketed by the Harris Trust and Savings Bank and Cohn & Burr, Inc., at 100 and interest to yield 6 per cent.

COTTON MARKET

NEW YORK, June 2. (Exclusive)—The cotton market fluctuated over a wide range today due to the sharp break in Liverpool and the subsequent recovery there at the close, and also the mixed trading on the conflicting weather news and forecasts from the belt. There was a decline here of 10 to 15 points, from yesterday's closing throughout the contract list in the early trading, July was off to 18.90, October, 16.30, December, 15.80 and January, 15.10.

Those prices, however, proved the lowest of the day as renewed good buying developed and there was considerable operating of shorts before the end of the noon hour the market had recovered the early decline and advanced 15 to 18 points over yesterday's closing with July going up to 18.75, October, 17.50, December, 17.00, January, 16.50, and March to about 17.70, thereby coming within 5 to 8 points of equating the season's highest prices reached early yesterday which were the highest since the early part of last September.

Absence of much needed rains in Western Texas was the bullish factor on which the market was rallied. The Weather Bureau predicts only partly cloudy weather for Texas tonight and tomorrow but there will be showers and thunderstorms for nearly all other parts of the belt.

This would be very beneficial to the Atlantic and Gulf States and not so good for the Central states, where dry weather for the present is needed. The drought in North and West Texas is the principal bullish factor on the market at present.

At Liverpool spot cotton was off early today 15 English points from yesterday's prices with middling now 8.14 per point in that market. Futures there opened 5 to 8 points lower and declined to 12 and 14 below their close of yesterday but regained all this and finished firm at the top at 4 to 5 points net advance on the favorable action of our market and the continued need of rain in Texas.

NEW SAVINGS BANK HERE

First in National System to Conduct Savings Business Exclusively; McFadden Law Responsible

BY EARLE E. CROWE

Progressive national bankers have been alert to seize the advantage permitted through the liberalization of the National Bank Act by the new McFadden banking law. As rapidly as conservative practices have dictated, the new ideas in banking have been introduced into the national system, and the competitive advantages of the banks chartered under State laws are correspondingly decreasing as the adjustment proceeds. The newest idea in national banking is a bank exclusively for savings, and the first one will be established in Los Angeles.

Under the name of the National Bank for Savings in Los Angeles, the new bank, the first of its kind ever chartered in the national system, will open for business soon in a location in the metropolitan district. The bank will have a capital of \$500,000 and a surplus and contingent fund of \$75,000. Under the direction of an organization committee, with offices in the H. W. Hellman Building, stock will be sold to the public at \$125 a share.

To Los Angeles goes the honor of obtaining the first of the national savings banks, but it is likely that others will arise quickly in the large cities. This city, in fact, has several of the ground for considerable rivalry between the State and national banks for savings business, even though the National Bank Act, prior to the passage of the McFadden bill, did not specifically give the right to national banks to accept savings deposits.

RIVALRY HERE

For some time several Los Angeles national banks have advertised for savings deposits, and it was in this city that the words "national trust and savings bank" were first used in the corporate name of a national bank.

Under the modernized National Bank Act, it is now possible for national banks to do a savings business exclusively, and do it profitably. The McFadden law authorizes national banks to loan 50 per cent of their assets in savings deposits on improved city real estate, whereas the act formerly limited banks under national charter to loans of only 25-33 per cent of savings deposits on city real estate, and for a period of one year only. The rigid provisions of the old law virtually prohibited the operation of a national savings bank exclusively.

FERTILE FIELD HERE

What the field is for savings banks in Los Angeles is illustrated by the size and growth of savings deposits. Total savings deposits in Los Angeles are approximately \$75,000,000, and \$50,000,000 annually, or \$1,000,000 are increasing at the rate of about 10 per cent. The conservative estimate of the national banks into the savings business in this city forecasts, it is evident, the release of a large percentage of the total savings deposits into loans on improved city real estate.

The announcement of the chartering of the National Bank for Savings in Los Angeles is one of a series of interesting developments in banking following the passage of the McFadden law. Immediately, the majority of national banks not previously engaged in city-wide savings banking, proceeded in the larger metropolitan centers to establish branches. Next came the conversion of California's largest branch bank system into the national association, and the reduction of its capital stock to \$25 per share.

Officers and directors of the National Bank for Savings in Los Angeles will be announced shortly. The list, according to the organizers, will include the names of several leading Los Angeles bankers and business men, most of them identified in the past with national bank affairs.

The organization petition to the Comptroller of Currency was signed by F. D. Treadwell, president, Commercial National Bank, Phoenix, Ariz.; A. L. Abraham, attorney; L. M. Allen, retired; Captain J. C. Baker, U. S. Army; Pacific Coast representative, Racine Shoe Manufacturing Company; and W. H. Foster, Bureau of Power and Light, Los Angeles.

Net Profits of Von's in Four Months Higher

Net profits of Von's, Incorporated, for the first four months of the current year increased 74.8 per cent, and gross sales were 29.3 per cent greater than in the corresponding period of last year, according to figures just released by the company.

The company, which operates more than twenty-five grocery stores in Los Angeles and surrounding territory, reports sales for the four months ended April 30, last, of \$905,025.10, as compared with \$699,874.22 in the corresponding months of 1926, an increase of \$205,150.88.

For the same period of this year, net profits totaled \$61,501.67, before taxes, as against \$35,022.29 in the same period last year, a gain of \$26,479.38. Net surplus on April 30, last, amounted to \$50,586.93, an increase of \$27,501.97 since December 31, last.

Von's, Incorporated, a Delaware corporation, was organized last year to succeed a California corporation of the same name, and operations began under the new set-up on June 1, 1926. Sales of merchandise for the seven months of operation in 1926 aggregated \$1,340,180.08, and for the twelve months ended December 31, last, \$2,215,742.29.

Business Philosophy

BY WILLIAM FRATHERS

A single fact will often spoil an interesting argument.

Every husband admits his wife showed sound judgment when she picked him out.

Easy jobs never last long—the competition for them is too keen.

Customers are harder to get than to keep.

The Economist's index was up 60 points today to 3888, with minerals lower, but a substantial rise in foodstuffs and textiles.

The return of the Bank of France again showed no change in gold stocks held, but increase of \$500,000,000 francs in advances to the state and \$600,000,000 francs in "other assets" which include foreign balances.

GLOBE GRAIN TO BOOST SURPLUS

Addition of \$2,000,000 Made by Capital Reduction

Way Paved for Resumption of Dividend on Common

Treasury Share Cancellations Make Move Possible

Reduction of the outstanding common stock of the Globe Grain and Milling Company from 30,000 shares to 20,000 shares and the transfer of the \$2,000,000 from the capital account to surplus has been authorized by the board of directors of the company to pave the way for resumption of dividends.

According to a letter mailed to stockholders yesterday by O. H. Morgan, president, the change in the capital structure, which would have the approval of holders, will be accomplished by the issuance to each common stockholder of three shares in lieu of four shares now held, or in the same proportion as the reduction.

OTHER CANCELLATIONS

In addition, 30,000 shares of common stock and 18,000 shares of second preferred stock, authorized on the 19th of May, will be cancelled, together with 10,000 shares of first preferred stock already redeemed and retired. The Morgan plan, which the second preferred stock is an 8 per cent issue.

The increase in surplus created by the proposed reduction in capital will partially restore the earned surplus account, which has been greatly reduced by losses sustained in previous years through the operations of the Globe Cotton Oil Company, and will make possible a further charge-off without impairing the capital account should the directors desire to completely liquidate the Globe Cotton Oil Company properties by sale thereof.

ACTION IN JULY

Common dividends cannot be resumed until the company's earned surplus account is restored, the latter stated. Earnings at the present rate would justify a 50-cent dividend on the common stock, and it is expected that dividends may be resumed on this basis about October 1, although action will not be taken by the board until after the books are closed on July 1.

"The plan as outlined," Mr. Morgan explains, "will in no way divert the interests of any stockholder inasmuch as the assets of the company will not be affected. Each holder of common stock will own the same proportion of the assets as now owned, but such ownership will be evidenced by a smaller number of shares. The new common stock of the new common stock should be correspondingly greater to reflect the equivalent of this reduction."

New Investment House on List of Local Concerns

Jones, Hubbard & Co. has been formed as an expansion of the interests of Harry L. Jones & Co. to which business the new company will succeed, it was announced yesterday by Mr. Jones. In addition to contributing the investment trust "diversified trustee assets" and acting as correspondents for "Throckmorton Investment Trust," New York City, Hubbard & Co. will deal in corporation, municipal and public utility securities.

The Clearinghouse

News of Spring Street

Another European country, is about to place its currency on a gold basis, according to Alex. S. Corvis, assistant vice-president in charge of the foreign department of the Citizens' Bank. The new unit of currency will be known as the "Kroon" and will supersede the Estonian marks now in circulation. This change will be made possible by a loan from the League of Nations but the amount of the loan is not yet in the Baltic region. It was formerly part of the Russian Empire and was created by the Treaty of Versailles.

Rolling to Hold Plenty

The E. H. Rollins & Son office will be closed tomorrow to enable the entire staff to attend the annual picnic of the investment house. A baseball game between the sales and finance departments, followed by an evening of dancing.

Listed on Curb

Preferred and common shares of the Owl Drug Company have been listed on the New York Curb and were called for trading early this week. This is the second listing of California stocks on the "Seasoning Ground" of the New York Exchange in the past thirty days, the capital stock of Magnin & Co., Inc., having been admitted to trading in May.

Forster to Honolulu

F. E. Forster, vice-president and superintendent of branches of the Citizens' Trust and Savings Bank, is one of the 150 local business men who will make the tenth annual excursion trip to Honolulu under the auspices of the Chamber of Commerce. The party will sail on the City of Honolulu at noon tomorrow.

Pamphlet Issued

George H. Burr, Conrad & Broom, Inc., are distributing a new pamphlet entitled "Building an Income Fund," which describes a plan of systematic investment to bring financial independence. The plan is supposed to eliminate hazardous, hit-and-miss methods of investment. The booklet is illustrated with charts and tables.

BANK DEPOSIT TREND TOPIC

Persistent Fall in Demand with Simultaneous Rise in Time Funds Shown by Federal Reserve

BY PAUL WILLARD GARRETT

NEW YORK, June 2. (Exclusive)—How time deposits have been steadily rising during recent years, simultaneous with a persistent fall in demand deposits, is strikingly shown in a graph of the New York Federal Reserve Bank's new monthly bulletin.

The bank's discussion on trends in time and demand deposits is based entirely on national bank statements, but these unquestionably reflect, accurately enough, the general movement for all banks. While demand deposits have been declining for a long time, their shrinkage has not been so pronounced as the expansion in time deposits. In the case of country banks, time deposits have grown so substantially that for the first time on a call date they exceeded in volume those made on demand.

At the bank points out, "the increase in time deposits during the year was much more rapid in central reserve and non-reserve cities, however, amounting to 34 per cent, as compared with 5 per cent in country banks. Since 1915, time deposits have increased from 38 per cent to 51 per cent of the total deposits of country banks and from 1-1/2 to 28 per cent of the total deposits of central reserve and non-reserve cities, while the proportion of demand deposits has been correspondingly reduced."

The interesting point of the study lies in the significance of the movement, of course, rather than in the statistics tabulated by the bank. A variety of influences at work over recent years have tended to expand time deposits, but perhaps none of these are more important than the increased savings of the American people. Steadily the volume of funds has grown faster than the needs of industry, and a good portion of these have gone into time deposits. It cannot be argued that growth in time deposits reflects a contraction in business activity since actually trade has been kept unusually active. Doubtless the establishment of savings accounts by banks has contributed substantially to the increase.

Mail-Order Head Chosen to Lead Johns-Mansville

NEW YORK, June 2. (AP)—R. E. Mansville, president of the Johns-Mansville Corporation, announced today that Theodore F. Mansville, president of the Johns-Mansville Corporation, would assume the presidency of the Johns-Mansville Corporation July 1. Mansville will become chairman of the board, he said.

Speculation for the coming year followed in many forms, but to relinquish control of the company, Mansville has been developing a plan to keep the main line of the company's money held firm at the same level.

CHICAGO, June 2. (AP)—Theodore F. Mansville, president of the Johns-Mansville Corporation, announced today that Theodore F. Mansville, president of the Johns-Mansville Corporation, would assume the presidency of the Johns-Mansville Corporation July 1. Mansville will become chairman of the board, he said.

"Times" Daily Short Story

The Beginning of Command
By ALBERT RICHARD WETJEN

ARTHUR STEWART TAPLOW was alone for the first time. He stood with the thought in his head of the great armada of forty men and great wealth. In his hand was delivered the lives of the men behind him, and he was aware of the fact that he was the only man who could save them. He was alone for the first time. He stood with the thought in his head of the great armada of forty men and great wealth. In his hand was delivered the lives of the men behind him, and he was aware of the fact that he was the only man who could save them.

PLANNED WATER ACT

Colorado Enabling Measure Uncertain

Suit Likely Soon

July 29, Next

Way for Union Using Aqueduct

to test the constitutionality of the Metropolitan Water District of Southern California, will be filed July 29, next, in the U. S. district court at Denver, Colo., by the Colorado River Water Users Association.

The suit will be in the nature of a writ of mandamus against the board of directors of the Metropolitan Water District of Southern California, to compel the board to file a bill of particulars of the district's financial condition.

The suit was filed by the Colorado River Water Users Association, which is a group of farmers and ranchmen who are opposed to the district's plan to build a large aqueduct to divert water from the Colorado River into the Los Angeles area.

STILL MORE HONORS FOR SCHOOL GIRL

Evelyn Adams Winner of Oratory, Editorial and Essay Writing Prizes

Evelyn Adams, 16 years of age and a senior student at the Los Angeles High School, is adding her high school career in a blaze of glory. Within the last year she has been the recipient of several unusual honors.

First, she was the winner of the oratorical contest in the Los Angeles High School district, for which she received the best of Lincoln which was given to the school with her name inscribed upon it. It is the first time in the new trophy room there.

Next, just a few days ago, word was received at the school that Miss Adams was the California winner in a national essay contest sponsored by the American Chemical Society. The title of her essay was "The Contributions of Chemistry to the Enrichment of Life" and the prize was a \$20 gold piece.

Lastly, for writing the best editorial in the semiannual school publication she was awarded first place and a gold pin.

Following her graduation this month Miss Adams expects to enter the University of Southern California in the fall. She is the daughter of Mr. and Mrs. Martin Adams of 2100 Torrance street.

FORCE ULTIMATUM GIVEN

to File Final Decree Declared Contempt by Superior Judge Collier

Members of the bar to file decrees in divorce cases tried by Judge Collier hereafter will constitute contempt in Judge Collier's eyes. This was the ruling yesterday of Judge John H. Collier, who declared that the mechanics of the law in an inferior court of divorce in a case said to have been pending for more than a year ago.

The judge's order, which was made in the case of the divorce of John H. Collier and his wife, was a direct ultimatum to the members of the bar to file their decrees in divorce cases by a certain date, or else they would be held in contempt.

WHAT PRICE HIGHER LEARNING?

Co-ed Can Get Education at Average Cost of \$750 a Year Including Clothes and Recreation, Survey by Dean of Women Indicates

A sum of \$750 a year will see the average girl of today through college, at least safely if not always comfortably, in the opinion of Mrs. Helen Mathewson Laughlin, dean of women at the University of California at Los Angeles.

This price of higher education for the modern co-ed was set by Mrs. Laughlin after an exhaustive study of living costs among female students at the university without being forced to sacrifice in the matter of their education.

Also, the study revealed that the cost of education for college students is not as high as it is often made out to be. The average cost of a year's education for a co-ed was found to be \$750, which includes tuition, books, clothes, recreation, and other expenses.

TWO-CENTURY LIVES COMING

Average Span to Be 100 Years in 2000, Expert Says; Chewing Food Well Declared Unimportant

Prediction that some of the babies born in the year 2000 will live to be 200 years of age was made yesterday by Dr. Victor E. Levine before the joint session of the Western Hospital Association and the State Dietetic Association in convention at the Ambassador Auditorium. Dr. Levine is professor of biological chemistry and nutrition at the Creighton School of Medicine at Omaha.

By the year 2000, the average span of life will have increased to 100 years, he said, pointing out that it was only 21 years in the sixteenth century and now is 55.

A plea for more sunlight for every child was made by Dr. Levine, who declared that lack of the sun's rays was partly responsible for three diseases of widespread occurrence, anemia, tuberculosis and rickets.

CRISIS HALTS AIRPORT MOVE

Council Refuses to Accept Majority Report

Advisory Committee Resigns Suddenly in Protest

Effort to Have City Buy Bandini Site Lost

Dramatized into decisive action by the sudden resignation of the entire Citizens' Advisory Airport Committee, the City Council yesterday refused to accept the majority report of Councilmen Hughes and Shaw, recommending that Los Angeles purchase the \$3,250,000 Bandini site for a municipal flying field. Following heated debate in the Council chamber, the resignation of disinterested citizens seeking to give unselfish aid, and innuendoes implying the location of a "nigger in the woodpile," the Council voted to delay all action and to refer the entire matter to the Finance Committee for public hearings and further consideration.

CITY FUNDS FOR 'GRAB' ADMITTED

Publicity in Bonds Campaign Partly Paid For

High Court Ruling Requires Restitution

Power Board Members May be Personally Liable

Admission was made at the office of the Municipal Power Bureau yesterday by employees that some of the political campaign publicity material put out by the bureau in support of Propositions 3 and 4 ("grab" measures) on the ballot at next Tuesday's election had been paid for from revenues of the department, in spite of Superior Court Judge Butler's decision against these expenditures in the W. W. Mines taxpayer's suit which was affirmed by the Supreme Court of California on Wednesday.

This literature was signed "Issued May, 1927, by the Department of Water and Power, City of Los Angeles." Who will pay for this campaign literature is a question which the Board of Water and Power Commissioners must decide. It was said at the Power Bureau yesterday, in view of the Supreme Court decision that to pay campaign expenditures from power revenues is illegal.

Evelyn Adams

WEDDING RING OF FLOWERS

Prospective brides and two brides of University of Southern California passing through penny breakfast wreath

PANSIES TELL BETROTHALS

Fourteen Co-eds Pass Through Marriage Wreath at Traditional Trojan Breakfast

When fourteen co-eds from the graduating class at the University of Southern California stepped through the traditional penny breakfast wreath of good luck at the annual penny breakfast yesterday at the Delta Delta sorority house, the theory that college has its matrimonial advantages was given considerable confirmation.

For by passing under the flower-decked wreath the fourteen girls automatically announced to their graduating sisters that they had succeeded in securing a lifetime partner.

Besides the procession through the marriage wreath the breakfast was marked by a farewell talk by Mrs. Rufus von Klenzsmann, wife of the president of the university, and musical selections by the Delta Delta sorority house, where the breakfast was held, and Dr. Mary Blair Crawford, dean of women at the Trojan institution.

Here are the girls and the young men they named as future life helpers and whom they admit were snared as a side issue to book learning:

Adelle Beckwith and Dr. R. L. White, Evelyn Smith and John M. Bolman, Mary Ella Brooks and Owen K. Burman, Florence Shogren and Marie O. Lindsey, Muriel Mills and Herbert Owen, Mildred Smith and Donald Murridge, Donata Jordan and David Conley, Jane Marie Williams and Henry Kruger, Esther Rouner and Charles Daly, Marjorie Hull and David Bryant, Dixie Wheatley and William Friend, Doris Johnson and R. Van Buren Livingston, Helen Lee Barnes and Clifford M. Davis, Peggy Barry and Emory C. Neal, Mrs. Ruth Bracken Adams and Mrs. Frank Bartman, who took the plunge into matrimony before school was over, also accompanied the bride-to-be through the ceremony.

It was announced that class reunions will be held today for members of the classes of 1912, 1917 and 1922 at a banquet to take place at 6:30 p.m. on the campus.

PROMOTION URGED FOR BULLOCK

Woman Jurist Suggested for Superior Court Seat by Republican Veterans

A resolution urging the appointment of Municipal Judge George F. Bullock to one of the recently created Superior Court seats was adopted last night by the Veterans' Republican League and Disabled War Veterans of the Twelfth District. The resolution also urged the appointment of Ida V. Wells, deputy City Prosecutor, to the resulting Municipal Court vacancy.

The resolution declares that Judge Bullock has served with distinction as a judge of the Police Court, and is the only woman in the city who has had judicial experience.

Ida V. Wells, the resolution says, is especially well qualified by training, experience and temperament to perform judicial duties.

A copy of the resolution was sent to Gov. Young. The organization selected the following officers to serve for four years:

Harry Margid, president; Bert Busman, first vice-president; Leo Freund, second vice-president; M. Leynd, secretary.

Advisory Committee Resigns Suddenly in Protest

Effort to Have City Buy Bandini Site Lost

Dramatized into decisive action by the sudden resignation of the entire Citizens' Advisory Airport Committee, the City Council yesterday refused to accept the majority report of Councilmen Hughes and Shaw, recommending that Los Angeles purchase the \$3,250,000 Bandini site for a municipal flying field. Following heated debate in the Council chamber, the resignation of disinterested citizens seeking to give unselfish aid, and innuendoes implying the location of a "nigger in the woodpile," the Council voted to delay all action and to refer the entire matter to the Finance Committee for public hearings and further consideration.

Prosecutor Plans Action Against Oil-Tangle Money Lenders

JULIAN USURY MOVE DECIDED

Many Involved in "Pools" Face Complaints
Check Shows Overissue to be 4,293,613 Shares
Stockholders in Association to Aid Investigation

County complaints against several Los Angeles money-lenders who operated in the "pools" which are the subject of the investigation by the Julian Petroleum Corporation, which is under official investigation, will be heard next Monday, City Prosecutor Lickley announced last night.

Dr. Lickley made the announcement after he had spent the day in conference with S. C. Lewis, resigned president of the corporation, and Chief Deputy District Attorney Davis. The prosecutor declared he had a firm foundation upon which to base his proposed action by the discovery that more than 400 persons were involved in 100 pools, which operated in the past year. The aggregate of the pools, he said, would total between \$20,000,000 and \$100,000,000.

TOTALS \$10,000,000

"I have given these involved ample opportunity to return their ill-gotten gains to the receivers for the benefit of the stockholders and they have refused to do so," Lickley said. "I shall file on several of them on Monday." Dr. Lickley said, "I have given these involved ample opportunity to return their ill-gotten gains to the receivers for the benefit of the stockholders and they have refused to do so."

William C. Kottmann, certified public accountant, who made a survey of the Julian books at the instance of the authorities, announced that a complete examination of the records showed an overissue of 4,293,613 shares of both common and preferred stock.

The total shares of preferred issued is 8,494,510, Kottmann said, while the common stock totals 8,991,097. There are 4,293,613 shares of common and 8,991,097 shares of common transferred and cashed.

Of total outstanding shares there were 8,991,097 of preferred and 8,991,097 of common, according to the account. The corporation was authorized by the State to issue 10,000,000 shares of common and 1,000,000 shares of preferred.

While Kottmann completed his audit of the shares, a report of what was presented to the receivers and other investigating officials, George T. Nolan, grand jury investigator, interviewed more than 500 stockholders at the District Attorney's office, registered their holdings and informed them that they will be notified later by mail of the status of their stock, whether regular or over-issued, when the list is completed by the grand jury.

The grand jury will convene again today to resume its investigation. Lewis is expected to complete his testimony and other former attaches of the Julian Petroleum Corporation are expected to testify.

The grand jury will begin returning indictments. A score of indictments is expected to be returned.

FOUR ASSOCIATION

The "four association" of the stockholders, D. Spruill, 721 White Oak avenue, Monrovia, a holder of Julian securities, announced the organization of the association with headquarters at 414 Wilson Building, second and Spring streets. Those heading the association are: D. Spruill, president; J. W. Stuckman, secretary; J. W. McMillan, Arthur M. Loeb and Thomas J. Dugan.

"This organization is to be operated entirely without profit," Spruill declared, "and it is to be positively free from exploitation by any individual. More than fifty stockholders are with us and more are coming. All are invited. The association is for the benefit of every stockholder regardless of the size of his holdings. We expect shortly to announce a plan."

Stock Books Shows With Covers

Julia Saunders of Accountant Kottmann's staff looking over Julian Petroleum stock certificates. She is standing on the stock books of the company. Three books thicker than a telephone directory and approximately the same size, filled with thin sheets of single-spaced type-writing, were required to list the holders of these securities.

man meeting entirely free from radicals and the mob spirit to devise some plans for the purpose of co-operating with the receivers and other officials who are now handling the affairs of the Julian Petroleum Corporation and its allied interests.

MEN OF FUTURE TO LIVE LONGER

(Continued from First Page)

lege of surgeons, speaking at a dinner at the Ambassador last night.

These men, he said, are intended to show better scientific methods of cutting for hospital patients, the best methods of performing surgical operations for use in medical colleges and many other phases of medical and surgical science. The first picture is expected to be ready for release in July and within two years, Dr. Macchiarini predicted, films will be available for almost any purpose or need. The Eastman Kodak Company, which manufactures most of the film used in the motion-picture industry, also has indicated its willingness to co-operate, he said.

Discussing the subject of hospitals, the speaker said of 3700 institutions under survey, 1400 have been approved and the work is being carried on to eliminate those which are regarded as unfit. Hospitals which are operated primarily to make money without regard to welfare of the patient, are rapidly being driven out of business, he said, and the general standard is constantly being raised.

Dr. Wallace F. Vail of Pasadena, president of the Western Hospital Association, presided and a brief talk also was given by Mrs. Gertrude Nelson Andrews, noted writer and lecturer.

The convention will close today, following a round-table discussion this morning and the delegates will leave for a visit to Mt. Lowe at 1 p.m.

TEST PLANNED ON WATER ACT

(Continued from First Page)

trial. One city shall be chosen as the "initiating city" and the Council of that city will pass an ordinance declaring the intention of forming the district, citing the names of the committee members and appointing an estimate of the preliminary cost. This shall be substantially in accordance with the population as shown by the most recent census.

ONLY TWO NEEDED

The initiating city then forwards a copy of the ordinance, which they in turn adopt or reject, forwarding notice of their action within sixty days. After 180 days have elapsed after sending out the ordinance, the initiating city shall call an election on the proposed form of the district. Two cities alone may create the district. In each community a majority of the voters therein voting favorably will be sufficient to include that city in the district. If the proposition fails of a majority in any city, it then will be eliminated from the district. The result is dispatched to the Secretary of State, who then issues a certificate of incorporation.

The governing body of the district is called the board of directors. Every incorporated city within the district may have one vote, at least, and an additional one for each 10,000 in assessed valuation or \$100,000 in assessed valuation, whichever is less. However, no city may have more than 50 per cent of the total number of votes. The province was inserted at the bottom of the small cities surrounding Los Angeles, because, on a basis either of population or assessed valuation, this city would have a preponderance over all the others. Under the present arrangement Los Angeles can control the district with the aid of one other city.

MUST VOTE AS UNIT

Large interests may sit on the board, but they must vote as a unit. The directors are appointed by the mayor, their appointment to be confirmed by the Council.

The board is given broad powers to fix its location of principal offices, its size and the number of members, and the creation of a working force. It is expected by those who have studied the matter that the board will meet in the center of the city, while the operation of the district will be in the hands of a staff of trained engineers and experts.

The expense of building the aqueduct and instituting the district will be met by bond issues, to be called by the board and voted upon by all the voters in the district. A simple majority only is required for a favorable determination of the issue. The bond charges will be prorated among the cities according to their assessed valuation. Cities may vote themselves into the district and out of it.

New Queen Ann Playground to be Open Today

Queen Ann playground, nearly four acres in area, will be dedicated to the public today by the Los Angeles Playground and Recreation Department.

Dedication ceremonies will be held at 3 o'clock with Supt. George Hjelte presiding, the presentation speech made by Dr. E. P. Ryland, president of the Playground Commission, and acceptance for the community school by Councilman I. P. Hughes. Playground Supervisor J. C. Henderson will present the playground colors and introduce John Burroughs Junior High School band.

Queen Ann playground has a community house and full playground facilities. Anna A. Quinn will be chief director. The new playground is at Queen Ann and Twelfth streets.

TWO STATES TO FCINC

President Alfred Livingston of the Kentucky State Society and President Monroe W. Wilson of the Tennessee State Society have called a joint annual picnic for tomorrow at Echo Park. They are urging that all former residents of these States now in Southern California either as residents, visitors or tourists, attend. There will be addresses by Congressman Evans, John S. Stealy and others.

SURPRISE TREND IN ENSIGN CASE

Unexpected Development in Testimony Reported

Unidentified Witness on Stand Two Days

Detectives Up in McShane Inquiry for Today

Surprising testimony, the nature of which was kept profoundly secret, is said to have been given yesterday at the second day's session of the naval court of inquiry into the death of Ensign Julian J. McShane. The court is being conducted aboard the U.S.S. Tennessee at Los Angeles Harbor, and the only civilians present are two lawyers, L. W. Frankley and Joseph Spray, who represent McShane's mother, Mrs. Sarah McShane of Hillcrest City, Md.

The first witness called in the inquiry, who took the stand late Wednesday afternoon as soon as the court convened, was still under examination when the court adjourned for the day last night, according to newspaper reports. He is assumed to be a naval officer, as no civilians are known to have been summoned to appear before today, and it is believed he is one of McShane's fellow junior officers, probably some one who knew him very well. His testimony is said to have been directly opposite in tendency to some that was given at the first court of inquiry, held a day or so after McShane's death.

ASK DELAY OF SHIP

In view of the length of time taken by this witness and the fact that the Tennessee is due to sail for San Francisco tomorrow night, the two attorneys last night telegraphed the navy, asking that the court be adjourned until the inquiry is finished. The attorneys would make no comment on the evidence reported, saying that the case is "taking an unexpected trend."

Several civilian witnesses subpoenaed for today include Detective Lieutenant William Evans of the San Pedro division, who started an investigation that was taken over by the naval authorities, and Orville "Red" Wilson, who was a youth resembling McShane's description on a pier some 200 yards away from the California Yacht Club early on the morning of October 3. Some women also are to testify, it is reported, but their identity has not been made known.

Whether the naval witnesses will be through testifying in time today to permit these civilians to take the stand is not known.

HISTORY OF CASE

McShane is last known to have been alive about 12:30 a.m. October 3 when he, with other officers, left the California Yacht Club where they had been on officers' party. His body was found two days later near the shore where Pate was on duty, and the first court decided he had drowned accidentally, despite testimony that his skull was fractured and that there were marks of violence on his face.

Pate testified that the young man who was killed was dressed in civilian clothing and was unarmed, and that he appeared to be dead. After an almost conversation with Pate, the court decided that the direction of San Pedro. He believed he might have returned to the pier, however, and fallen into the water. The court decided that Pate saw someone else than McShane, however.

Mrs. McShane, dissatisfied with the findings of the court, appealed to Secretary Wilbur, who ordered the inquiry reopened.

COMPANY L HEADS LIST OF GUARDS

Los Angeles Regiment Unit Awarded First Place at State Troops Inspection

At the head of the list of the "very satisfactory" units of the State in the recent annual inspection of State troops is Company L, One Hundred and Sixtieth Infantry, California National Guard, "Los Angeles Own" regiment, according to word sent from the headquarters of the unit, which was held here from Adj.-Gen. Littlefield.

Taking twelve places in the "very satisfactory" awards, the One Hundred and Sixtieth Infantry, which has two places in each instance. Four of the companies rated 100 per cent are units of the One Hundred and Sixtieth Infantry.

Greatly pleased with the showing of the regiment, Col. Harcourt Hervey, commanding officer of the One Hundred and Sixtieth Infantry, stated that he looked forward to a duplication of the record at the annual encampment and training period at Del Monte, August 14 to 28, next.

"I am confident," stated the colonel, "that the One Hundred and Sixtieth Infantry will go to camp 100 per cent strong. I have this opinion on the fact that we now have 80 per cent drill attendance each Tuesday night at the State Armory in Exposition Park, and that shortly, it will be necessary to close encampments as the regiment will soon be recruited to maximum strength permitted by the regulations."

SUSPECT FREED OF STATUTORY CHARGE

Robert Hale, 24 years of age, arrested on suspicion of committing a statutory offense against Mary Roy, 21, yesterday was ordered released by Dep. Dist. Atty. Thoms following an investigation. Hale, who is said to be residing at 1924 Chalmers avenue, was placed in the County Jail Wednesday night on suspicion. It was stated by Mr. Thoms that no action would be taken by the District Attorney's office. The Robert Hale in question is not Robert Hale, actor, who lives at 1924 Highland avenue, the latter said yesterday.

RELIEF CORPS TO MEET

Stanton Woman's Relief Corps will meet in the Patriotic Hall, 1816 South Figueroa street today for the regular sewing and dinner day. This will also be the birthday dinner of all members who have birthdays in May and June.

WINS DIVORCE FROM 'NICE, QUIET FELLOW'

THE LANCER

(Continued from First Page)

regular law have got to come to a showdown. And it might as well be now. In the end, much human life and much national honor would be saved if the militia turned loose into that mob without further ado, and raised machine guns until it was a massacre.

CRISIS HALTS AIRPORT MOVE

(Continued from First Page)

May as to its place in the scheme of national defense. At this point the advisory committee felt that a recommendation could then be made to the city government for the purchase of such site as would best meet these requirements.

CONFERENCE NOT HELD

"During the past several weeks the advisory committee has been unsuccessful in effecting the proposed conference with the councilman committee for the purpose stated."

"Without prior knowledge, the advisory committee has learned through the public press and otherwise that a majority report from the councilman committee to the City Council is ready for presentation recommending the purchase of a specific property as a municipal airport."

"This advisory committee feels that such a move is not in the best interests of the city and that it is the duty of the committee to recommend a site at this time. The advisory committee further feels that it cannot be a party to such a recommendation by the Councilman committee and that it must, and does hereby, disclaim any responsibility in such recommendation."

RESPONSIBILITY DISCLAIMED

"The advisory committee further feels that, inasmuch as the Councilman committee has been unsuccessful in effecting the proposed conference with the councilman committee for the purpose stated, and that in view of the unusual action of the Councilman committee, the undersigned members of the advisory committee hereby resign as such, and disclaim any responsibility."

Stuffed by the startling rebuke, Councilman Hughes arose and loudly stated:

"I'm sorry the advisory committee feels it has been treated discourteously. We found it difficult for many reasons to get together whenever we wished."

"Did you consult with the city engineer?" he asked. "I did not," replied Hughes. "We consulted with them often," replied Hughes. "I did not consult with them before you majority members of the Councilman committee voted for this 'Bandini effect' proposition," replied Hughes. "No," said Hughes, stubbornly, "we did it on our own motion."

SHAW EXPRESSES 'SORROW'

Councilman Shaw also expressed deeply his "sorrow" that the advisory committee had resigned, but he had little explanation or defense to offer for the asserted attitude of the Councilman committee in the matter.

Councilman Randall, who had been pondering the problem in discharging a broadside:

"Does Mr. Hughes expect the members of this Council to spend more than \$5,000,000 on the mere majority report of a committee?" he asked.

"I agree that Los Angeles needs a municipal airport badly, but it seems to me these suggested ports need airing more."

Shaw took exception to the implication in Mr. Hughes' remarks, and suddenly introduced voluntarily a matter unknown to many.

"If Mr. Randall knows anything about airline he knows more than I do," he said, stiffly. "I did hear rumors that the Bandini site was reported to have been offered originally at \$5500 an acre, but such rumors are false."

More's demand that the majority report be "respectfully declined" and Hall's suggestion that the committee be discharged then were overruled. Councilman Graves moved that the complete file, the majority and minority reports and the written resignation of the advisory committee be referred to the Finance Committee. Councilman Sparks seconded the motion, which was carried, with only one dissent, that of Councilman Hall, voting against it. Hughes and Shaw, shaken by the attack, even voted for the reference, which, in its essence amounted to adoption by the Council of Councilman Hall's minority report.

Capt. Lindbergh's Flight Seen as Stimulation to American Aviation

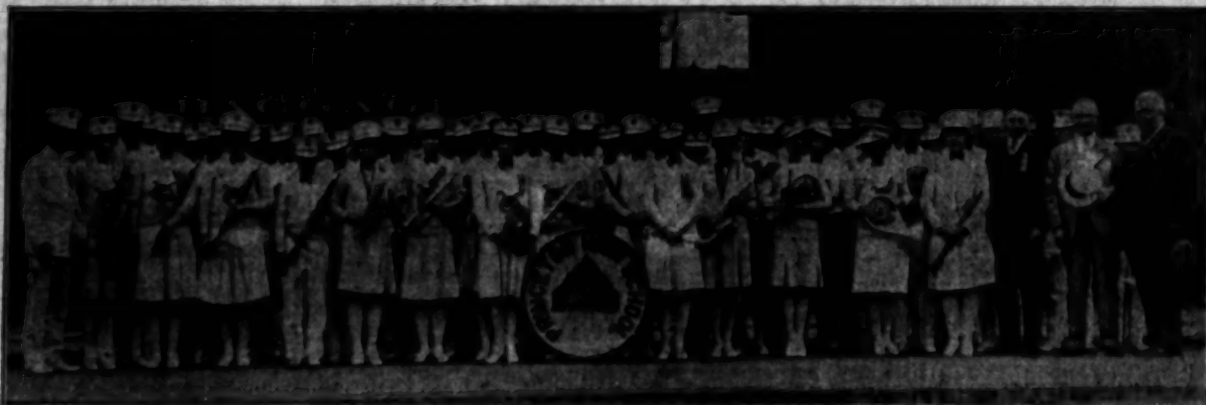

Capt. Lindbergh's magnificent accomplishment is something more than a mere gesture of American courage and skill, according to aviation officials in service and civilian flying units, who assert that recruiting in the aviation units has more than doubled since the nifty American youth completed his trans-Atlantic flight at Paris. At left (above), "Lindy" is pictured with Ambassador Herrick, who is pointing at decoration bestowed on the flyer by French government; next, recruiting officer for 115th Observation Squadron, California National Guard, is shown signing two prospective airmen on grounds of Pacific Mutual Building; Capt. Lindbergh, fully contemplating fuselage of his plane mutilated by souvenir hunters, is shown in the third photo; while at right, Capt. Lindbergh and Ambassador Herrick are caught by the camera in a close-up. (P. & A., Times Acme photos.)

An Unusual Occupation is that of Miss Hazel Kitts, artist for the poultry division of the Agricultural Department. Here she is shown at her work designing model poultry farms to be shown at forthcoming Canadian exhibition. (P. & A. photo.)

Wouldn't Exactly Come Under the Head of "Side Arms," this bit of ordnance which the United States Navy is adding to the armament of the U.S.S. Colorado. It's the new 90-ton, 14-inch rifle which navy experts expect great performance from. Some idea of its size is gained by comparison with sailor shown with it. (P. & A. photo.)

Out of a Student Body Boasting Fewer Than One Hundred Members, a forty-seven-piece band, which won first honors at Council Bluffs (Iowa) competition for high school bands, was organized at Princeton Union High School, Colusa County, California. Photo shows organization as it arrived here this week following its victory. (Southern Pacific photo.)

EMBRYO FLYERS
JOINING GUARD

Forty Enroll for Vacancy of
Less Than Twenty

Biplane on Street Helps to
Attract Recruits

State Observation Squadron
Increases Strength

(Illustration on Picture Page)

Capt. Charles A. Lindbergh crossed the Atlantic and young America has renewed its interest in aviation. This is borne out by the success of the present recruiting efforts of the One Hundred and Fiftieth Observation Squadron, Fortieth Division, Air Corps, California National Guard. With but four days elapsed in a ten-day program, forty embryo aviators have enrolled to fill a vacancy calling for less than twenty, and it is anticipated this enrollment will be more than doubled by the termination of the campaign.

Recruiting is being carried on at the grounds of the Pacific Mutual Building, Sixth street near Olive. Here a DH-4-B-1 plane, with a 400-horsepower Liberty motor, and a maximum speed of 135 miles an hour has been assembled and a squad of members of the squadron is constantly on hand to explain the work and opportunities of this arm of the guard service.

LINDBERGH'S STORY TOLD
Capt. Lindbergh of the Missouri National Guard is used as an example of what is done by the guard air service. In a small folder outlining aerial opportunities that is being distributed at recruiting headquarters, his story of learning the air is related.

Members of the National Guard air unit are given the fundamentals of aviation, the work being practical, whereas the elementary work of Lindbergh came through a correspondence school. Flying is not taught in this service, although the government air service schools give preference to guard-trained men over civilians and from the guard service many of the air mail carriers have been graduated and are being graduated.

Instruction given includes a complete course in parachute instruction in motors, dealing with carburetion, ignition, overhaul, trouble-shooting, etc.; airplane rigging, armament and machine gun instruction; aerial photography, with flying aids and occasional cross-country squadron tours as reward for good attendance and special accomplishment.

WORLD FLYER'S SHIP
The plane on exhibition at the Pacific Mutual plant is the one assigned to Lieut. Leslie P. Arnold, one of the round-the-world flyers, whom he took over instruction work with the National Guard air unit. Lieut. Arnold was until recently an instructor with the One Hundred and Fiftieth Observation Squadron, having resigned from the Army Air Service to enter motion pictures.

Lieut. Paul Whittier, United States Army Air Service, one of the present instructors and one of the officers in charge of the recruiting work, stated that choice of the necessary men to bring the enlisted personnel from sixty-three to the desired eighty would be through physical fitness in combination with interest shown in aviation. While regulations call for at least one weekly instruction period the desire of this service is that its men shall be sufficiently interested to give a large amount of time to study and instruction. Those enrolling at the present time and qualifying along these lines will be given preference in filling out the organization.

Instruction periods are on alternate Sundays and Mondays. Sunday periods the time is 9:30 a.m. and Monday 7:30 p.m. These times have been selected for the reason they do not interfere with ordinary business hours.

According to Lieut. Whittier anyone who desires to take advantage of this opportunity should enroll immediately as, with the desired number now more than 100 per cent enrolled, the organization is in a position to pick its men and will pick the most desirable.

Officers of the police department, in a report filed by the Police and Fire Committees of the City Council yesterday, were exonerated of "anything irregular" in connection with rumors that "assessments" were to be levied against members of the department to create a "murder defense" fund for Detective Lieutenant Sheffield and Randolph.

The report, which was adopted by the Council, declared that testimony received by the committee indicated that police captains had not conducted a secret meeting, as originally rumored, but in regular weekly session had passed resolutions regarding the creation of a general fund for the defense of any officers "unjustly accused" of any crime.

**FOURTH OF JULY
MISHAPS BEGIN**
Boy Finds Box of Fireworks in Garage and Explosion May Cost His Life
Discovery and explosion of a box of fireworks in a garage at the rear of his home at 1301 Tamarind street yesterday may cost the life of Edgar Fleischman, 15 years of age, according to police. The boy was given emergency treatment at the Receiving Hospital for third-degree burns of the face, neck, arms and upper part of his body, which, Police Surgeon Rutherford stated, may prove fatal.

While the lad was unable to explain to officers just how the fireworks were set off, it is believed by police that the whole lot exploded while he was attempting to light one or two smaller crackers. The boy's cries were heard by F. W. Leslie of 562 Lexington avenue, who rushed to his aid and dragged him from the garage, which had caught fire from the explosion.

KNAPP WILL
FACE TRIAL
IN FELONIES

"Garage Burglar" Suspect
Ordered Held on Lengthy
Series of Charges

Paul E. Knapp, 39 years of age, asserted Hollywood "garage burglar," yesterday was ordered held to the Superior Court by Municipal Judge Blake for trial on seven different felony charges. In addition two special commitments were ordered, one on a statutory charge and the other on robbery.

In all, Knapp was held to the higher court on fourteen separate counts in the seven felonies, the charges ranging from assault with intent to commit a statutory offense to assault with intent to commit murder. Bail was fixed by Judge Blake at \$50,000, in default of which Knapp was held in the County Jail.

When, Dep. Dist. Atty. Crall presented the State's case last week, testimony was introduced to show that Knapp had perpetrated a series of robberies, in which women were the victims. In each case the robberies were followed by assaults, according to testimony.

Miss Paula Drendall, cinema actress, of 1023 North Mariposa street; Mrs. E. Weber, 1138 West Ninth street; Mrs. J. B. Waybright, 2831 1/2 West Thirtieth street; Mrs. A. J. Burns, 942 South Harvard boulevard, testified against Knapp.

According to Detective Lieutenant Bull, the defendant drove a gun loaded with dum-dum bullets when the officer attempted to place him under arrest. Lieut. Bull shot Knapp through the shoulder, he testified.

Attorney Nathan O. Freedman stated there would be no defense offered in the lower court.

**Alumni Reunion
to Bring Back
Half-Century**
Former students of the Los Angeles High School will hold an alumni reunion of the classes of 1877, 1899, 1917 and 1920 at the school cafeteria at 8 p.m. tomorrow, the occasion being the unveiling of a tablet dedicated to the memory of Miss Elizabeth Packard, principal of the school from 1889 to 1917.

Principal Emeritus W. H. Boush, who headed the school from 1895 to 1925, will be the chief speaker. He will relate some of his experiences in the recent world tour presented to him by the alumni and faculty.

The trophy room, containing trophies dating from 1893 to the present, also will be thrown open for the first time since the school's famous athletes who have helped win the trophies are Bob and Irish Muesel, Allen Moore, Wilshire Municipal champion, and Ben Corbush, intercollegiate tennis champion.

Members of the class of 1877 who are still living are Mrs. D. Boush, Mrs. M. Flathead, Mrs. O. Porter, Mrs. C. Northcraft, Mrs. E. Benedict, Mrs. West, Mrs. G. S. Son, Mrs. Dunsmoor.

MAILMEN TO PICNIC
Fourth of July Event Will Be Held in Echo Park
The annual picnic and barbecue of the Los Angeles letter carriers July 4, next, at Echo Park will far surpass previous entertainment efforts of the mailmen, according to William Neumann, president of the association.

A long list of sporting events will start promptly at 10 a.m., including the usual track-and-field events for children and grown-ups. An open air entertainment, amusements for the children and dancing until midnight are assured.

The Los Angeles Letter Carriers' Band, which shares the proceeds of the picnic with the Sick and Death Benefit Association, will appear in several concerts during the day and evening.

**CALIFORNIA AUDUBON
SOCIETY WILL MEET**
The California Audubon Society will have its twenty-first annual meeting at the Watkins Estate, 5608 Briar Cliff Road, tomorrow. The meeting will begin with study at 8 a.m. in the gym at the Watkins estate entrance to Griffith Park and the program at 10 a.m. There will be a picnic luncheon at noon.

NEWS OF THE CAFES
Stage and screen celebrities joined hands last Wednesday evening to tender a welcome to Ray West and his orchestra in a premiere in Miller's Cafe Lafayette, marking the return home of the "boy director" from a nation-wide tour.

As a tribute to a pioneer of film studio music, screenland was prominently represented in the brilliant audience under the supervision of Law Cody as master of ceremonies.

Special dancers will be given from 1 to 2 o'clock afternoons and 7 to 10 o'clock nights during West's engagement at the Lafayette. It was announced last night.

Radio fans who enjoyed West's concerts during engagements at the Alexandria and Ambassador before he left on his nation-wide tour will have the opportunity to again listen to him during his present engagement at the Lafayette.

"COLLEGE NIGHT"
Lou Erickson and his new Collegiate Montmartre Orchestra, which has scored such a hit at Brandt's Hollywood Montmartre Cafe, will act as hosts this evening to the students of the University of Southern California and the University of California at Los Angeles when College Night is celebrated. Erickson formerly was a student at the Trojan university, and will feature college songs in his musical program.

Both the lady and gentleman winner of the dance contest will be presented with a bathing suit by Miss Lucille Miller, who won first prize in the Venice beauty contest, and also will receive a prize Montmartre building.

COTTON CLUB CARNIVAL
Carnival Night will be celebrated in Frank Sebastian's New Cotton Club, Culver City, this evening with a special program of events, including new songs and dance numbers.

So great was the success of the special show given by the cafe on Memorial Day that the management already has begun preparations in anticipation of a large attendance July 4.

CHEERFUL CHAFF

BY READERS

WRITE FOR THE "MOVIES" AND WIN CASH PRIZES
The Los Angeles Times produces a popular fun post called "Cheerful Chaff." Consisting of the twelve best jokes submitted weekly by readers. Twelve \$1 prizes are awarded each week, the names and addresses of winners together with prize-winning jokes appearing on the cover.

Everyone is invited to send jokes. No formal letter is necessary. Just let your joke run its course. It must be new, clean, and suitable for publication. Send to "Cheerful Chaff," Los Angeles Times, Room 124, 125 South Main street, Los Angeles, Cal.

Selections for the week of June 3, 1927, are as follows:

APOLLO, Redwood California, Redwood Park Alvarado, 710 South Alvarado, Redwood, 124 South Main street, Los Angeles, Cal.

THEATRE SHOWING "CHEERFUL CHAFF"

ROOSEVELT, 211 South Main street, Los Angeles, Cal.

WILSON, 124 South Main street, Los Angeles, Cal.

ESTREYETA DEL LEJANO CIELO

HOW IT MAY BE SAID, THAT CALIFORNIA BUSHES, HAS NEVER A SCORPIONIST

What does Scorpionist mean? "A scorpionist is a man for post."

R. Frankfield, 697 South Wilson Place.

Teacher: How did you solve your arithmetic problem?
Johnny: I asked a magician at the magic show and he told me.

Arthur Stranahan, 1110 Pearl street, Anaheim, Cal.

Mother: Marie's been taken offense at something. Have you said anything to her?
Father: Not a word; haven't even seen her since I pinned the gas bill up in the hall.

Agnes C. Sharpe, 4175 Second avenue.

A man wrapped up in himself makes a very small package.

A. M. Robertson, 609 Roma avenue.

NEW PLAN FOR REGIC OF PAST SAILS INTO HARBOR MAY GOULD ON WAY TO PLAY PO

Nonfixable Tag Feature of Proposed System

Idea Advanced by Lickley at Safety Conference

Method Would Sound Knell of Time-worn Alibis

Los Angeles motorists violating the traffic code will have an opportunity to act as judge and jury in assessing fines for their offenses if a suggestion offered by City Prosecutor Lickley and heartily endorsed at a traffic safety conference last night in the Alexandria becomes a law.

The suggested method provides for formation of a traffic violations and fines bureau to be created in conjunction with the City Prosecutor's office, and division of traffic offenses into major and minor classes. But the plan is not a new type of nonfixable tag. Should the system be adopted, time-worn alibis and excuses for violations formerly made before municipal judges will be fruitless for the offender.

On the back of the new tag would be printed a list of the various offenses and opposite will be found the accompanying fine for the first or second offense. All the motorist has to do is to select the offense and the fine is deposited with the proposed traffic violations bureau on the specified date—there is no alternative. The fine is not a "tag" as it is not a permanent one. It will be issued. All alibis offered will have to be made to the street officer at the spot when the offense is committed.

The safety conference was called last night at the instance of the Traffic Committee of the City Council, of which Frank L. Shaw is chairman. Members of the Traffic Committee are: Los Angeles, city and county, municipal judges and numerous other public officials attended, presenting their views on traffic problems.

Dr. McClinton, consultant on traffic problems for Los Angeles, Chicago and many other large cities, was the principal speaker. He stressed the need for a more effective method of dealing with the ever-increasing traffic problem.

"There is no permanent solution for the problem of traffic congestion and congestion," he said. "Los Angeles and its traffic, which, after all, is only a reflection of the property and physical examinations for motor vehicles, it is necessary to constantly develop new and improved methods of regulation."

Frank A. Bouelle, assistant superintendent of the Board of Education, urged the adoption of strict mental and physical examinations for motor vehicles to reduce accident tolls. Pedestrian tunnels have enabled the schools to prevent an increase in the number of accidents to children, he said, but additional tunnels and more traffic officers are needed in the city.

Vital statistics presented by Coroner Frank Nance showed that 120 persons have been killed in the city since January 1, 1926. Eighty fatalities were reported in the county outside of Los Angeles.

A new dining car service and a cut of thirty minutes in the running time between Los Angeles and Phoenix on the Santa Fe Phoenix Flyer is announced by James B. Duffy, General Passenger Agent for the effective Sunday, the 12th inst.

New Fred Harvey cafe-observation car of the Santa Fe Flyer has been received from the Pullman shops for this improved service. Under the new time table the Flyer will leave Los Angeles at 8:45 a. m. and arrive at Phoenix at 3:45 p. m.

The Flyer will leave Phoenix at 8 p. m. and arrive at Los Angeles at 10:15 a. m. instead of 8 p. m. as at present.

Harold Lloyd Beter, Comedian Now Expected to Escape Paralytic Attack

Harold Lloyd's condition was improved yesterday, and it is believed he may escape paralytic attack, which he was threatened when he was ordered to bed by Dr. William Brock Wednesday. This was the substance of a bulletin issued by Dr. Brock after seeing his patient.

Lloyd's temperature, which on Wednesday was 103 deg., dropped to nearly normal, and his condition is believed to be improving. Dr. Brock said if the improvement continues Lloyd will be able to be out in a week. All visitors have been barred from the hospital, and only friends to actively support him on June 7.

Incidentally, the candidacy of E. Snapper Ingram for election to the City Council from the Tenth District has been given up by Ingram. He has been given by the Tenth District, and the support of the entire membership. Another endorsement is from the Greater Beverly Boulevard Association. Harrison L. Snapper, president of the association, is president and Edgar B. Snapper, secretary. The association is headed by Mrs. Dora A. Snapper, president. Other officers of the league are Dr. Mae Parsons and Mrs. John J.

Infant Son Discovered Dead by Mother, Who Becomes Prostrated

Cooling and kicking, John Reese, Jr., one-month-old son of Mr. and Mrs. John Reese of 340 Ocean View avenue, Clearwater, yesterday was the victim of a tragedy. The child, who was born on May 15, was found dead in his crib. The mother, who was prostrated by the tragedy, was found in a state of collapse. The child was found in a state of collapse. The mother, who was prostrated by the tragedy, was found in a state of collapse. The child was found in a state of collapse. The mother, who was prostrated by the tragedy, was found in a state of collapse.

Woman Hurt in Crash Receives Fractured Skull When Auto Hits Steam Shower

A woman believed to be Mrs. Evelyn Egan, about 24 years of age, who received a fractured skull and other injuries when her automobile was struck by a steam shower at the intersection of Broadway and Fuller street.

According to attendants at the Receiving Hospital where she was taken, she received a fractured skull and other injuries when her automobile was struck by a steam shower at the intersection of Broadway and Fuller street.

Baby Smothers Self in Crib

Cooling and kicking, John Reese, Jr., one-month-old son of Mr. and Mrs. John Reese of 340 Ocean View avenue, Clearwater, yesterday was the victim of a tragedy. The child, who was born on May 15, was found dead in his crib. The mother, who was prostrated by the tragedy, was found in a state of collapse. The child was found in a state of collapse. The mother, who was prostrated by the tragedy, was found in a state of collapse.

Boy May Die of Burns Igniting Gasoline-Soaked Papers Has Disastrous Results

Alfred Soto, 14 years of age, was probably fatally burned last afternoon when he ignited a pile of papers saturated with gasoline which he had studied in an incident in the rear of his home at 620 Olive street. He was treated at the Receiving Hospital by Police Surgeon Debraud and is in a critical condition.

The boy, according to the police, had poured gasoline on the papers to make them burn quickly. When he applied a match the swiftly burning fire caught in the folds of the papers, blew directly in his face.

Too Late—To Cleanly

A woman, who was found in a state of collapse, was found in a state of collapse. The child was found in a state of collapse. The mother, who was prostrated by the tragedy, was found in a state of collapse. The child was found in a state of collapse. The mother, who was prostrated by the tragedy, was found in a state of collapse.
